**RE: TR-210227 - Grade Crossing Protective Fund Application**

Dear Mr. Hendricks:

On April 6, 2021, Nippon Dynawave Packaging Company (Nippon Dynawave) filed a Grade Crossing Protective Fund (GCPF) application with the Washington Utilities and Transportation Commission (UTC). Nippon Dynawave requested \$25,000 in grant funds to partially fund a project to rebuild the grade crossing at Washington Way/Gate 10, USDOT #974352V, in Longview, WA.

GCPF projects must be completed and reimbursement documents must be submitted to the UTC within the same state budget biennium in which they are awarded. Because the completed application was received in April, it was not realistic for the project to be completed prior to the end of the current biennium on June 30, 2021. UTC staff will hold the application for formal consideration until 2021-2023 biennium GCPF funds become available after July 1, 2021. No additional action is required on behalf of Nippon Dynawave at this time.

If you have any further questions, please contact Mike Turcott, Transportation Planning Specialist, at (360) 664-1119 or at [mike.turcott@utc.wa.gov](mailto:mike.turcott@utc.wa.gov).

Sincerely,
