

**CREA Data Request 0047**

Reference RBD-5T at 6:3-15. For each of the last five years, please provide any data or records in the Company's possession that document the costs to the Company of maintaining, repairing, and/or replacing facilities installed by a customer.

**Response to CREA Data Request 0047**

Objection. Pacific Power assumes ownership of facilities that customers were required to install after the facilities have been placed in service. Pacific Power does not, in its normal course of business, separately track costs associated with facilities installed by a customer. The Company handles maintenance, repair, and replacement of such facilities just as it does for facilities that were not installed by a customer. Therefore, providing this information would be unduly burdensome because it would require manual review of all Company maintenance and repair documentation to determine those items associated with facilities previously owned by a customer.
