Definitions
Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.
Multiplier — Converts the amount of electricity used as measured by your meter into kWh.
kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.
Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.
Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

A rate change became effective during this billing period. The listed rate item(s) that changed shows the dates, prices and charges for each portion of the bill period when they were in effect. Copies of the rate schedules are available upon request.

Your electric bill reflects changes in rates that went into effect on January 1, 2021.

NOTICE OF CORRECTED CHARGES

Important Information pse.com | f t ● ● in i+ You Tube

Notice of Corrected Charges Based on Actual Meter Read

This bill is based on an actual meter read and includes corrected charges for your energy usage. Your previously billed charges were based on estimated meter reads. We have adjusted the billing amount as shown in the Detail Information section. If a charge is due, we set up your account on an interest-free installment payment plan, which will appear on your next bill. Questions? Call us at 1-866-767-5853, Monday-Friday, 8 a.m. - 5 p.m.

Installment Plan Information: This is a summary of your installment payment plan with PSE. This summary includes a total of amounts paid on your installment plan and all future installment payments due. Due dates for future installment payments will be synchronized with future invoice due dates and may vary slightly from the dates shown.

Miscellaneous Charges and Credits

| Description | Amount |
|---|------------------|
| Current Installment Amount | \$ 353.70 |
| Total Miscellaneous Charges and Credits Amount | \$ 353.70 |

Your electric bill reflects changes in rates that went into effect on January 1, 2022.

Definitions

Electric

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

Multiplier — Converts the amount of electricity used as measured by your meter into kWh.

kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.

Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.

Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

Natural Gas

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

CCF — Your meter measures the volume of natural gas used in hundreds of cubic feet.

Btu Factor — Converts your CCF energy usage into therms by adjusting it for actual heat content. Btu stands for British Thermal Unit.

Therm — Your use of natural gas is billed in units called therms. It is a unit of heat that equals 100,000 Btu.

Other Natural Gas Charges and Credits — Includes the Conservation Program charge and the Merger credit.

DO NOT PAY NOW

Understanding your corrected Puget Sound Energy statement

You are receiving this notice because we found and corrected a mistake on your account. As a result, we have updated your account with the corrected balance due.

On the enclosed notice, the new amount due shows as “corrected charges.” You’ll also find a listing for cancelled charges. These are the charges billed during the prior month(s) that have been cancelled for correction. The notice also shows the current month’s charges and any previous charges. If you have charges for products and services unrelated to energy use those charges also will appear.

Listed below are some frequently asked questions. To help you pay the balance, we have established an interest-free installment payment program. The first installment amount will appear on your next statement. Please call us with any questions at **1-866-767-5853**.

FAQs

The following frequently asked questions provide an explanation about billing corrections.

What is a billing correction?

The correction is for under billed or over billed charges for a period of time.

What are typical causes for a billing correction?

Corrected charges are most commonly due to a meter problem, module problem or billing error.

How did PSE calculate the amount for the correction?

If the meter was not registering usage correctly, the billing correction is estimated based on the best available information PSE has for the location. The estimated consumption is computed from the date the meter did not correctly register energy use. The corrected charge, interest-free, is calculated for only the number of days the billing error existed. If there were overcharges paid, you will receive a credit with interest.

In addition to the meter, PSE’s equipment contains a module that electronically transmits the meter data to PSE. If the module malfunctions, often the meter itself is still operating properly and PSE is able to obtain the actual energy use from the meter’s register. The unbilled consumption is then computed from those meter readings and is allocated across the billing periods that the module was not functioning correctly.

How did PSE calculate the amount of the monthly installment payment plan that appears on the billing correction?

The balance due, including current charges, is divided by the number of months the meter issue occurred. To arrange different payment options or to pay in full, please call 1-866-767-5853.

How will I know when I’ve completed my billing correction payments?

When all monthly payments on the installment plan are complete, the itemized listing, “Installment Payment Plans” no longer will appear on your PSE statement.

What is PSE doing to avoid having to issue billing correction invoices?

When we find an error, such as meter failure, or malfunctioning module, we correct the error as soon as possible. Although our meters have a 99 percent accuracy rate, a meter may eventually stop working or a module may malfunction. Our automated systems help detect malfunctioning or stopped meters and malfunctioning modules. We also routinely inspect meters and repair or replace them as needed.

Definitions

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

Multiplier — Converts the amount of electricity used as measured by your meter into kWh.

kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.

Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.

Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

Definitions
Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.
Multiplier — Converts the amount of electricity used as measured by your meter into kWh.
kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.
Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.
Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

Keeping our word.

You will receive a \$50 credit on your PSE bill if we do not keep a set appointment to install new or reconnect existing service or inspect natural gas equipment. Exceptions apply during major storms or significant events beyond our control.

You deserve excellent service.

Every day we aim to give you clear, understandable answers to your questions about bills, credits, deposits and your energy service. If you have a complaint or dispute with your bill or service, please call us at 1-888-225-5773. If you are not satisfied with the response, ask to speak with a supervisor. If you are still not satisfied, you may contact the Consumer Affairs section of the Utilities and Transportation Commission at 1-888-333-WUTC (9882) or complete an online complaint form at www.utc.wa.gov.

NOTICE OF CORRECTED CHARGES

Notice of Corrected Charges Based on Actual Meter Read

This bill is based on an actual meter read and includes corrected charges for your energy usage. Your previously billed charges were based on estimated meter reads. We have adjusted the billing amount as shown in the Detail Information section. If a charge is due, we set up your account on an interest-free installment payment plan, which will appear on your next bill. Questions? Call us at 1-866-767-5853, Monday-Friday, 8 a.m. - 5 p.m.

A rate change became effective during this billing period. The listed rate item(s) that changed shows the dates, prices and charges for each portion of the bill period when they were in effect. Copies of the rate schedules are available upon request.

Definitions

Electric

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

Multiplier — Converts the amount of electricity used as measured by your meter into kWh.

kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.

Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.

Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

Natural Gas

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

CCF — Your meter measures the volume of natural gas used in hundreds of cubic feet.

Btu Factor — Converts your CCF energy usage into therms by adjusting it for actual heat content. Btu stands for British Thermal Unit.

Therm — Your use of natural gas is billed in units called therms. It is a unit of heat that equals 100,000 Btu.

Other Natural Gas Charges and Credits — Includes the Conservation Program charge and the Merger credit.

DO NOT PAY NOW

Understanding your corrected Puget Sound Energy statement

You are receiving this notice because we found and corrected a mistake on your account. As a result, we have updated your account with the corrected balance due.

On the enclosed notice, the new amount due shows as “corrected charges.” You’ll also find a listing for cancelled charges. These are the charges billed during the prior month(s) that have been cancelled for correction. The notice also shows the current month’s charges and any previous charges. If you have charges for products and services unrelated to energy use those charges also will appear.

Listed below are some frequently asked questions. To help you pay the balance, we have established an interest-free installment payment program. The first installment amount will appear on your next statement. Please call us with any questions at **1-866-767-5853**.

FAQs

The following frequently asked questions provide an explanation about billing corrections.

What is a billing correction?

The correction is for under billed or over billed charges for a period of time.

What are typical causes for a billing correction?

Corrected charges are most commonly due to a meter problem, module problem or billing error.

How did PSE calculate the amount for the correction?

If the meter was not registering usage correctly, the billing correction is estimated based on the best available information PSE has for the location. The estimated consumption is computed from the date the meter did not correctly register energy use. The corrected charge, interest-free, is calculated for only the number of days the billing error existed. If there were overcharges paid, you will receive a credit with interest.

In addition to the meter, PSE’s equipment contains a module that electronically transmits the meter data to PSE. If the module malfunctions, often the meter itself is still operating properly and PSE is able to obtain the actual energy use from the meter’s register. The unbilled consumption is then computed from those meter readings and is allocated across the billing periods that the module was not functioning correctly.

How did PSE calculate the amount of the monthly installment payment plan that appears on the billing correction?

The balance due, including current charges, is divided by the number of months the meter issue occurred. To arrange different payment options or to pay in full, please call 1-866-767-5853.

How will I know when I’ve completed my billing correction payments?

When all monthly payments on the installment plan are complete, the itemized listing, “Installment Payment Plans” no longer will appear on your PSE statement.

What is PSE doing to avoid having to issue billing correction invoices?

When we find an error, such as meter failure, or malfunctioning module, we correct the error as soon as possible. Although our meters have a 99 percent accuracy rate, a meter may eventually stop working or a module may malfunction. Our automated systems help detect malfunctioning or stopped meters and malfunctioning modules. We also routinely inspect meters and repair or replace them as needed.

Definitions

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.
Multiplier — Converts the amount of electricity used as measured by your meter into kWh.
kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.
Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.
Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

Other Charges or Credits

Installment Plan Detail

| Original Amount | Current Amount Paid | Installment Amount | Due Date | Installment Unpaid Amount |
|--|---------------------|--------------------|-----------|---------------------------|
| \$ 2,124.60 | \$ 0.00 | \$ 303.51 | 9/1/2021 | \$ 303.51 |

NOTICE OF CORRECTED CHARGES

Notice of Corrected Charges Based on Actual Meter Read

This bill is based on an actual meter read and includes corrected charges for your energy usage. Your previously billed charges were based on estimated meter reads. We have adjusted the billing amount as shown in the Detail Information section. If a charge is due, we set up your account on an interest-free installment payment plan, which will appear on your next bill. Questions? Call us at 1-866-767-5853, Monday-Friday, 8 a.m. - 5 p.m.

A rate change became effective during this billing period. The listed rate item(s) that changed shows the dates, prices and charges for each portion of the bill period when they were in effect. Copies of the rate schedules are available upon request.

Other Charges or Credits

Miscellaneous Charges and Credits

| Description | Amount |
|---|-------------------|
| Elec - Residential Credit Adj | \$ -360.58 |
| Total Miscellaneous Charges and Credits Amount | \$ -360.58 |

Definitions

Electric

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

Multiplier — Converts the amount of electricity used as measured by your meter into kWh.

kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.

Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.

Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

Natural Gas

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

CCF — Your meter measures the volume of natural gas used in hundreds of cubic feet.

Btu Factor — Converts your CCF energy usage into therms by adjusting it for actual heat content. Btu stands for British Thermal Unit.

Therm — Your use of natural gas is billed in units called therms. It is a unit of heat that equals 100,000 Btu.

Other Natural Gas Charges and Credits — Includes the Conservation Program charge and the Merger credit.

DO NOT PAY NOW

Understanding your corrected Puget Sound Energy statement

You are receiving this notice because we found and corrected a mistake on your account. As a result, we have updated your account with the corrected balance due.

On the enclosed notice, the new amount due shows as “corrected charges.” You’ll also find a listing for cancelled charges. These are the charges billed during the prior month(s) that have been cancelled for correction. The notice also shows the current month’s charges and any previous charges. If you have charges for products and services unrelated to energy use those charges also will appear.

Listed below are some frequently asked questions. To help you pay the balance, we have established an interest-free installment payment program. The first installment amount will appear on your next statement. Please call us with any questions at **1-866-767-5853**.

FAQs

The following frequently asked questions provide an explanation about billing corrections.

What is a billing correction?

The correction is for under billed or over billed charges for a period of time.

What are typical causes for a billing correction?

Corrected charges are most commonly due to a meter problem, module problem or billing error.

How did PSE calculate the amount for the correction?

If the meter was not registering usage correctly, the billing correction is estimated based on the best available information PSE has for the location. The estimated consumption is computed from the date the meter did not correctly register energy use. The corrected charge, interest-free, is calculated for only the number of days the billing error existed. If there were overcharges paid, you will receive a credit with interest.

In addition to the meter, PSE’s equipment contains a module that electronically transmits the meter data to PSE. If the module malfunctions, often the meter itself is still operating properly and PSE is able to obtain the actual energy use from the meter’s register. The unbilled consumption is then computed from those meter readings and is allocated across the billing periods that the module was not functioning correctly.

How did PSE calculate the amount of the monthly installment payment plan that appears on the billing correction?

The balance due, including current charges, is divided by the number of months the meter issue occurred. To arrange different payment options or to pay in full, please call 1-866-767-5853.

How will I know when I’ve completed my billing correction payments?

When all monthly payments on the installment plan are complete, the itemized listing, “Installment Payment Plans” no longer will appear on your PSE statement.

What is PSE doing to avoid having to issue billing correction invoices?

When we find an error, such as meter failure, or malfunctioning module, we correct the error as soon as possible. Although our meters have a 99 percent accuracy rate, a meter may eventually stop working or a module may malfunction. Our automated systems help detect malfunctioning or stopped meters and malfunctioning modules. We also routinely inspect meters and repair or replace them as needed.

NOTICE OF CORRECTED CHARGES

Notice of Corrected Charges Based on Actual Meter Read

This bill is based on an actual meter read and includes corrected charges for your energy usage. Your previously billed charges were based on estimated meter reads. We have adjusted the billing amount as shown in the Detail Information section. If a charge is due, we set up your account on an interest-free installment payment plan, which will appear on your next bill. Questions? Call us at 1-866-767-5853, Monday-Friday, 8 a.m. - 5 p.m.

Definitions

Electric

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

Multiplier — Converts the amount of electricity used as measured by your meter into kWh.

kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.

Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.

Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

Natural Gas

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

CCF — Your meter measures the volume of natural gas used in hundreds of cubic feet.

Btu Factor — Converts your CCF energy usage into therms by adjusting it for actual heat content. Btu stands for British Thermal Unit.

Therm — Your use of natural gas is billed in units called therms. It is a unit of heat that equals 100,000 Btu.

Other Natural Gas Charges and Credits — Includes the Conservation Program charge and the Merger credit.

DO NOT PAY NOW

Understanding your corrected Puget Sound Energy statement

You are receiving this notice because we found and corrected a mistake on your account. As a result, we have updated your account with the corrected balance due.

On the enclosed notice, the new amount due shows as “corrected charges.” You’ll also find a listing for cancelled charges. These are the charges billed during the prior month(s) that have been cancelled for correction. The notice also shows the current month’s charges and any previous charges. If you have charges for products and services unrelated to energy use those charges also will appear.

Listed below are some frequently asked questions. To help you pay the balance, we have established an interest-free installment payment program. The first installment amount will appear on your next statement. Please call us with any questions at **1-866-767-5853**.

FAQs

The following frequently asked questions provide an explanation about billing corrections.

What is a billing correction?

The correction is for under billed or over billed charges for a period of time.

What are typical causes for a billing correction?

Corrected charges are most commonly due to a meter problem, module problem or billing error.

How did PSE calculate the amount for the correction?

If the meter was not registering usage correctly, the billing correction is estimated based on the best available information PSE has for the location. The estimated consumption is computed from the date the meter did not correctly register energy use. The corrected charge, interest-free, is calculated for only the number of days the billing error existed. If there were overcharges paid, you will receive a credit with interest.

In addition to the meter, PSE’s equipment contains a module that electronically transmits the meter data to PSE. If the module malfunctions, often the meter itself is still operating properly and PSE is able to obtain the actual energy use from the meter’s register. The unbilled consumption is then computed from those meter readings and is allocated across the billing periods that the module was not functioning correctly.

How did PSE calculate the amount of the monthly installment payment plan that appears on the billing correction?

The balance due, including current charges, is divided by the number of months the meter issue occurred. To arrange different payment options or to pay in full, please call 1-866-767-5853.

How will I know when I’ve completed my billing correction payments?

When all monthly payments on the installment plan are complete, the itemized listing, “Installment Payment Plans” no longer will appear on your PSE statement.

What is PSE doing to avoid having to issue billing correction invoices?

When we find an error, such as meter failure, or malfunctioning module, we correct the error as soon as possible. Although our meters have a 99 percent accuracy rate, a meter may eventually stop working or a module may malfunction. Our automated systems help detect malfunctioning or stopped meters and malfunctioning modules. We also routinely inspect meters and repair or replace them as needed.

NOTICE OF CORRECTED CHARGES

Notice of Corrected Charges Based on Actual Meter Read

This bill is based on an actual meter read and includes corrected charges for your energy usage. Your previously billed charges were based on estimated meter reads. We have adjusted the billing amount as shown in the Detail Information section. If a charge is due, we set up your account on an interest-free installment payment plan, which will appear on your next bill. Questions? Call us at 1-866-767-5853, Monday-Friday, 8 a.m. - 5 p.m.

A rate change became effective during this billing period. The listed rate item(s) that changed shows the dates, prices and charges for each portion of the bill period when they were in effect. Copies of the rate schedules are available upon request.

Definitions

Electric

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

Multiplier — Converts the amount of electricity used as measured by your meter into kWh.

kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.

Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.

Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

Natural Gas

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.

CCF — Your meter measures the volume of natural gas used in hundreds of cubic feet.

Btu Factor — Converts your CCF energy usage into therms by adjusting it for actual heat content. Btu stands for British Thermal Unit.

Therm — Your use of natural gas is billed in units called therms. It is a unit of heat that equals 100,000 Btu.

Other Natural Gas Charges and Credits — Includes the Conservation Program charge and the Merger credit.

DO NOT PAY NOW

Understanding your corrected Puget Sound Energy statement

You are receiving this notice because we found and corrected a mistake on your account. As a result, we have updated your account with the corrected balance due.

On the enclosed notice, the new amount due shows as “corrected charges.” You’ll also find a listing for cancelled charges. These are the charges billed during the prior month(s) that have been cancelled for correction. The notice also shows the current month’s charges and any previous charges. If you have charges for products and services unrelated to energy use those charges also will appear.

Listed below are some frequently asked questions. To help you pay the balance, we have established an interest-free installment payment program. The first installment amount will appear on your next statement. Please call us with any questions at **1-866-767-5853**.

FAQs

The following frequently asked questions provide an explanation about billing corrections.

What is a billing correction?

The correction is for under billed or over billed charges for a period of time.

What are typical causes for a billing correction?

Corrected charges are most commonly due to a meter problem, module problem or billing error.

How did PSE calculate the amount for the correction?

If the meter was not registering usage correctly, the billing correction is estimated based on the best available information PSE has for the location. The estimated consumption is computed from the date the meter did not correctly register energy use. The corrected charge, interest-free, is calculated for only the number of days the billing error existed. If there were overcharges paid, you will receive a credit with interest.

In addition to the meter, PSE’s equipment contains a module that electronically transmits the meter data to PSE. If the module malfunctions, often the meter itself is still operating properly and PSE is able to obtain the actual energy use from the meter’s register. The unbilled consumption is then computed from those meter readings and is allocated across the billing periods that the module was not functioning correctly.

How did PSE calculate the amount of the monthly installment payment plan that appears on the billing correction?

The balance due, including current charges, is divided by the number of months the meter issue occurred. To arrange different payment options or to pay in full, please call 1-866-767-5853.

How will I know when I’ve completed my billing correction payments?

When all monthly payments on the installment plan are complete, the itemized listing, “Installment Payment Plans” no longer will appear on your PSE statement.

What is PSE doing to avoid having to issue billing correction invoices?

When we find an error, such as meter failure, or malfunctioning module, we correct the error as soon as possible. Although our meters have a 99 percent accuracy rate, a meter may eventually stop working or a module may malfunction. Our automated systems help detect malfunctioning or stopped meters and malfunctioning modules. We also routinely inspect meters and repair or replace them as needed.

Keeping our word.

You will receive a \$50 credit on your PSE bill if we do not keep a set appointment to install new or reconnect existing service or inspect natural gas equipment. Exceptions apply during major storms or significant events beyond our control.

You deserve excellent service.

Every day we aim to give you clear, understandable answers to your questions about bills, credits, deposits and your energy service. If you have a complaint or dispute with your bill or service, please call us at 1-888-225-5773. If you are not satisfied with the response, ask to speak with a supervisor. If you are still not satisfied, you may contact the Consumer Affairs section of the Utilities and Transportation Commission at 1-888-333-WUTC (9882) or complete an online complaint form at www.utc.wa.gov.

Definitions

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.
Multiplier — Converts the amount of electricity used as measured by your meter into kWh.
kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.
Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.
Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

Billing Initiation Charge

| Description | Amount |
|-------------------------------------|----------------|
| Electric Billing Initiation Charge | \$ 6.10 |
| Effect of KITTITAS - RURAL City Tax | 0.00 |
| Total Amount | \$ 6.10 |

The billing initiation charge covers the costs of establishing service.

Keeping our word.

You will receive a \$50 credit on your PSE bill if we do not keep a set appointment to install new or reconnect existing service or inspect natural gas equipment. Exceptions apply during major storms or significant events beyond our control.

You deserve excellent service.

Every day we aim to give you clear, understandable answers to your questions about bills, credits, deposits and your energy service. If you have a complaint or dispute with your bill or service, please call us at 1-888-225-5773. If you are not satisfied with the response, ask to speak with a supervisor. If you are still not satisfied, you may contact the Consumer Affairs section of the Utilities and Transportation Commission at 1-888-333-WUTC (9882) or complete an online complaint form at www.utc.wa.gov.

Definitions

Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.
Multiplier — Converts the amount of electricity used as measured by your meter into kWh.
kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.
Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.
Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

A rate change became effective during this billing period. The listed rate item(s) that changed shows the dates, prices and charges for each portion of the bill period when they were in effect. Copies of the rate schedules are available upon request.

Your electric bill reflects changes in rates that went into effect on October 15, 2020.

Definitions
Basic Charge — Covers the costs for meters, meter reading, billing and other costs that do not vary with energy use or the number of days covered by the bill.
Multiplier — Converts the amount of electricity used as measured by your meter into kWh.
kWh — Your use of electricity is billed in units called kilowatt hours. It is a unit of energy that equals 1,000 watts of electricity consumed in one hour.
Energy Exchange Credit — Federal Columbia River Benefits supplied by Bonneville Power Administration from low-cost power generated by federal hydroelectric dams.
Other Electric Charges and Credits — Includes the Conservation Program and Power Cost Adjustment (if any) charges, and the Merger, Federal Wind Power, and Renewable Energy credits.

A rate change became effective during this billing period. The listed rate item(s) that changed shows the dates, prices and charges for each portion of the bill period when they were in effect. Copies of the rate schedules are available upon request.

Your electric bill reflects changes in rates that went into effect on December 1, 2020.
