Re: Penalty Assessment: TE-150531 against Bremerton-Kitsap Airporter, Inc.

Dear Mr. King,

In response to your letter dated August 18, 2015, the following is offered for your consideration.

We have previously submitted substantial documentary evidence proving our innocence (which is backwards) and apparently it is now incumbent on the staff to produce documentary evidence proving our guilt.

I do not intend to file for judicial review and bear the necessary legal costs to prove our innocence. We have done so already and if given the opportunity, I will again produce that evidence in a face-to-face meeting with one or all UTC Commissioners.

Needless to say, I have more urgent matters requiring my immediate attention. Again, I resent the implication that we, here at BKA, Inc., are misleading or untrustworthy and the ensuing harassment by staff. We perform a commendable service for the citizens of the communities that we serve and I am very proud of this achievement.

Sincerely,

Richard E. Asche
President
Bremerton-Kitsap Airporter, Inc.
