

June 28, 2017

Dear Puget Sound Energy CEO Kimberly Harris:

Thank you for retiring the dirty Colstrip coal plant boilers by 2025. As a PSE customer living in Kirkland, it reassures me that PSE is committed to renewable energy.

But I am distressed to learn that two boilers remain in operation. I believe that it is absolutely necessary for the health of our citizens and our planet to convert to 100% renewable energy as soon as possible. The price is affordable, and it is the only clean option.

Seven years go by so quickly! We have no time to waste. Please protect our health and our planet.

Sincerely,

Theodora Lodd
