Re: Avista Utilities 2016 Electric to Natural Gas Conversions Data

Dear Mr. King,

Attached please find a spreadsheet that details the Electric to Natural Gas Conversion data and calculates the number of customers installing code vs. high efficiency equipment. Please note that this does contain customer information which could be considered Confidential pursuant to WAC 480-06-170. The spreadsheet is in reference to a topic that will be discussed at an upcoming conference call May 8, 2017, with Avista, Kathi Scanlan and Deborah Reynolds.

If you have any questions regarding this information, please contact myself at 509-495-2896.

Sincerely,

/s/Amber Gifford/
