

Dear Ms. Harris,

I was very excited to hear about your new position as CEO of PSE. As a women's rights activist, I'm thrilled to see a fellow woman in a position of leadership, with the capacity to make a positive change in the world.

I'm writing you because I recently read PSE is the third biggest contributor to pollution... in the entire nation. As a resident of King County, and a mother of 3, I was appalled by this fact.

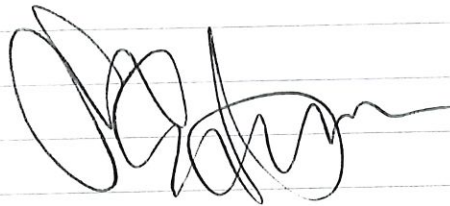

While I do appreciate your efforts to reach 15% renewable energy, I'm afraid this will not be enough. Particularly, because it won't go into effect until 2020. We need drastic change NOW.

I urge you... no, I beg you, to stop polluting ~~our~~ the air we breathe. I beg you to not destroy the land our children and future generations will inhabit.

I know you will be a leader for positive change. I know you will succeed where many men in power ~~have failed~~

before you have failed.

Thank you for your time,!
