WUTC STAFF DATA REQUEST NO. 13:

Re: Witness Roger Morin

Please provide a list of all public utility cases over the period 2000 to the present in which Dr. Morin has filed cost of capital testimony. For each case, please provide the following information:

- a. Name of company
- b. Name of jurisdiction
- c. Docket number
- d. Date of testimony
- e. Cost of equity recommended by Dr. Morin
- f. Cost of equity authorized by jurisdiction.

Response:

Because old testimonies are available in public records and/or on-line in the Lexis data base and/or on regulatory commission Web sites, Dr. Morin does not keep formal historical records of past testimonies in his archives in view of the accessibility of such documents. Nor does he rely on such information in his direct testimony. Dr. Morin did prepare the attached Excel file, containing a non-exhaustive listing of past testimonies including company name, regulatory agency, docket number and ROE recommended and awarded. Dr. Morin notes that ROE recommendations are frequently updated prior to, or during, formal hearings. Dr. Morin notes that Regulatory Research Associates does provide a formal compilation of the ROEs requested and awarded on a quarterly basis for both electric and gas utilities.
