Comments RE: PSE rate increase

I am a life long Washingtonian of 71 years.

I want us to get off coal now.

PSE cannot pass their costs for Colstrip on to us, their customers. I want renewables and NO coal now.

I do not agree to fund the Tacoma LNG project. It would use millions of gallons of our precious water, exacerbate climate chaos and is not needed for Washingtonians.

PSE is asking for a rate increase to cover projects I oppose.

I want my funds to pay for clean, safe, economic, renewable energy, NOT building or extending dirty fossil fuel infrastructure.

The Tacoma LNG plant is proposed for the Puget Sound Tribes land. They are opposed. You must respect their "No." Treaties are the highest law of the land, according to the Constitution.

Thank you.
Sincerely,
Gert Rosnessen
