

TO KIMBERLY HARRIS

I am a retired Senior who has lived in Seattle for over 25 years and have been a PSE customer for over five years. PSE's decision to retire Colstrip units 1 and 2 is great, but it time for PSE to do its part to protect the environment and retire Colstrip units 3 and 4 by 2025. Retiring units 3 and 4 and replacing their power with 100% renewable power and energy efficiency is both achievable and economical. It is the only sustainable act forward.

Sincerely,
Paul Johnson
Magnolia
