

CASCADE NATURAL GAS CORPORATION
Washington Utilities & Transportation Commission
2006 Rate Case Data Request

Request No. 232

Date prepared: October 3, 2006

Preparer: Dr. Morin

Likely Witness: Dr. Morin

Telephone: 206-616-5346

WUTC STAFF DATA REQUEST NO. 232:

Re: Witness Dr. Roger Morin

Please update Dr. Morin's response to WUTC Staff Data Request No. 13.

Response:

Because old testimonies are available in public records and/or on-line in the Lexis data base and/or on regulatory commission Web sites, Dr. Morin does not keep formal historical records of past testimonies in his archives in view of the public nature of such documents. ~~and~~ Nor does he rely on such information in his direct or rebuttal testimony. Dr. Morin notes that Regulatory Research Associates does provide a formal compilation of the ROEs requested and awarded on a quarterly basis for both electric and gas utilities. This document is attached in response to Request No. 234. Since the response to WUTC Request No. 13 was prepared in April 2006, Dr. Morin has filed two testimonies on behalf of Duke Energy Kentucky and AGL Resources's Tennessee subsidiary Chattanooga Gas Company. The two testimonies are attached.
