Company:
Docket:
Order:

Peninsula Sanitation Service, Inc., - G-011
TG-120283
No. 02, Dated June 28, 2012

Gentlemen:

During the above referenced general rate case, the company agreed to change from a quarterly financial statement production to a monthly financial statement production in compliance with WAC 480-07-520(4)(c). Those procedures are underway.

The Commission Order No. 2, at Paragraph 15 (3), requires the Company to file a general rate case with the Commission, including a cost of service study, using a full twelve months of data collected under its improved accounting and record keeping, with a proposed effective date of no later than February 1, 2014.

In furtherance of that requirement, can staff please provide me with a sample cost of service model which complies with all current Commission requirements so that the company can begin accumulating the data necessary to complete the cost of service study in a timely basis?

Please contact me if there are any questions.

Thank you.

Yours truly,

Weldon T. Burton CPA
