Date: September 30, 2009
Time: 1:32 p.m.

Place: Frontier Communications Corp.
3 High Ridge Park
Stamford, Connecticut

Draft Copy

1 utilized by the teams in Ohio from a business process
2 perspective will be carried forward since that will be
3 integral to utilizing the systems that will be coming
4 process part of the transaction.

5 Q Okay, that's part of the replicated systems,
6 right, that -- the systems that are being replicated as
7 part of this transaction?

8 A Well systems being replicated are actually the
9 software and the hardware. The business processes that
10 are utilized to run those systems are the practices that
11 I was referring to.

12 Q And are there any practices that Verizon
13 currently has in Ohio regarding let's say repair and
14 installation that will be carried forward by Frontier?

15 A At close, the processes that will be utilized
16 will be the processes that are being utilized today.

17 Q Would you agree with me that this transaction
18 is larger and more complex than any previous acquisition
19 of access lines that Frontier has undertaken?

20 A I would agree with that.

21 Q And given the unprecedented size and
22 complexity, can you describe new approaches to
23 integration and operational execution that Frontier has
24 developed?

25 A I'm sorry, could you repeat that question?
