To whom makes the decisions on pse increases! I am old and retired and dont get increases of 5 -6% on Social Security, Why should Pse receive such great increases? My cost of living goes up also. They should not receive any higher increases than the cost of living in my and many of other peoples opinion. They should tighten their belts on there costs, that seems to be out of control. please take this into consideration before U let them have a big increase or any increase this time. Thanks for hearing my opinion. Alden Bodtke
