

Dear Atty Gen Ferguson
and Public Counsel:

As a concerned PSE
rate-payer who attended
both the 7/31 and 8/31
rate case hearings,
I am perplexed why you
are not supporting the
rate case settlement.
As the dozen or more
K4C cities attest, getting
off coal by 2025 is a
priority for PSE customers.

The community of Colstrip
deserves assistance and
there will be decades of
remediation work address-
ing the coal plant and
mine's impacts. The rate
case settlement takes
a significant step in that
direction and is a small
price to pay for taking
that step. Given the
excellent work by you
and your office, your
position here is very
puzzling
