Subject: DOCKET UE-170033 PSE notice of requested changes to PSE rates and public hearings
Date: Tuesday, June 13, 2017 9:19:33 AM

Current rate change for residential electric service is inaccurate (9.3229 for 1st 600 kwh and 11.2051 for over 600 kwh).. I am currently paying 0.100413 for 1st 600 kwh and 0.119235 for over 600 kwh. Two phone calls and one e-mail finally got a response from PSE which is the monthly rate currently being charged is correct. I have little confidence in the PSE response as they publish both monthly statement and the proposed change attachment. When will the Utilities Commission and /or PSE publish the correct rate information
