Dear Attorney General Ferguson and
Public Council

I recently attended the PSE
rate case and was disappointed
to see that you are opposing the
rate case settlement. As a rate
payer to PSE I believe that
this settlement is very much
in my interest. I would
~~say~~ never have expected that PSE
could shorten their debt schedule
with only a 1% ~~interest~~ ^{increase} in rate.

I regard that as an amazing deal.
We get to reduce the climate
destruction and protect rate
payer from a much larger
potential increase in rates if
PSE had delayed restructuring
their debt for Colstrip.

Now is the time for 100%
renewable. It is good for the
environment and the economy

Generously,
Ronald Snell
