

06/28/2017

Dear Puget Sound Energy CEO Kimberly Harris:

As a Seattle resident, I would like to thank you for your commitment to retire 2 of the coal units at the Colstrip coal plant by 2022. You are in the unique position to decide to retire the remaining two coal units, to help the Northwest continue to be a leader in clean energy, and King County achieve our goal of 100% renewable energy by 2025.

Carbon pollution has no boundaries, it cannot be contained once in the atmosphere, so your decisions will reach more than just our corner of the United States. The devastating effects of climate change are being felt now and will continue to worsen if we continue our reliance on fossil fuels. Now is the time to change. Our survival and future generations are relying on us to do everything we can right now to do not what's best for profits but what is best for the health of our planet.

Thank you for taking the time to read my letter and consider what you can do to make a positive impact on the future.

Best Regards,
April McMorris
