Executive Director and Secretary Amanda Maxwell,

I oppose the "retained Renewable Energy Credits" (and other provisions) in the current UTC rulemaking that allows utilities to simply offset continued use of fossil fuel-generated electricity. We need 100% of electricity from nonemitting sources, as our 2019 law requires.

No hocus-pocus. We know that game of "trades" and credits HURTS our planet & its people, Native and otherwise.

Be adult! Wean off fossil fuel credits.

.

Sincerely,
Carol Ellis
