Notes: The residential savings for 2006 and 2007 are as reported by Avista in discovery in this proceeding, which in some cases differ from the Titus Report. (Avista Response to Public Counsel Data Request No. 283, Attachment A).

The shaded cells, showing residential savings for 2008, have been restated to remove the impact of the new residential savings estimates.

Avista's reported results for residential savings (therms) in 2008 were as follows: Washington, 521,424 (vs. restated of 370,339); Idaho 176,030 (vs. restated of 124,356).

* Avista has advised the Parties of the Company's intention to file corrected and revised tables and exhibits to the Titus Report. Titus provided Parties with corrections via e-mail on August 7, 2009.
