Concerning: Waste Connections, Inc. DS  
100

10-9-06

To: Washington Utilities & Transportation Comm

As you know Waste Connections has requested a rate increase of these services starting November 1, 2006.

My complaint is the price on the 2-32 gallon can weekly pickup. They want to increase that by \$4.00. A one can weekly pick-up will increase by .95 cents. Why should the two-can increase be 4 times the amount. I think this is very unfair. I am opposed to this unfair increase.

Thank you for your time.
