Hello UTC staff and Compliance team,

I am sorry but I think there was huge misunderstanding and miscommunication here. I have advised my website host to take my website down as soon as I was ordered to do so. I was only aware about it not been taken down this morning as soon as I got this email. Previous clients or referred clients are served by my town car company also known as Sound Express LLC. If they can be accommodated with vans and/or SUV's. I might have quoted customers but once they are ready to make reservations, they are referred to companies that I have known for a while such as, Beeline, Starline, Shuttle Express, etc. As far as the 56 passenger goes, they are run and operated by another company as I have waived my rights to own them. However, the 56 passenger was in the shop for a few months and in January of 2018 was taken out of the shop. There's a possibility that one might have thought it was operating that day but instead it was actually taken out of the shop in which it was parked for almost 3 months.

In conclusion, I have double checked with [Godaddy.com](#), my site host, they have frozen my site and I hope this explains the confusion.

Cheers,
