Re: CenturyLink's compliance with Condition No. 11 to the merged Company's agreement with Commission Staff and Public Counsel, Docket UT-082119, Order 5, Appendix 1

Dear Mr. Danner,

Condition No. 11, "Milestone Reporting", in the Docket UT-082119 merger settlement agreement between the Merged Company, Commission Staff and Public Counsel, adopted by the Commission in its Order 5 in the docket, requires the following notification of major system conversions:

CenturyTel and Embarq agree to provide the Staff and Public Counsel with advance written notice of major system conversions impacting Washington customers and will work with Staff to identify these major conversions. Those major systems will include, but not necessarily be limited to, business office and trouble reporting call centers, maintenance systems that monitor central office and transport equipment, engineering systems, outside plant record systems, and billing systems.

CenturyLink hereby provides in the attached document advance written notice of the conversion from certain Embarq systems to CenturyTel systems. CenturyLink plans to complete these system conversions in July 2011.

David Danner, Executive Director and Secretary
Washington Utilities & Transportation Commission
