CREA Data Request 0028

CREA Data Request 0028

Please provide a comparison of the cost to serve each customer class, as last approved by the WUTC, and the revenues received from each customer class at approved rates. Please explain the allocators for production capacity and transmission capacity, the distribution allocator and customer costs allocator that were last approved by the WUTC.

Response to CREA Data Request 0028

The Company objects to this request on the grounds that it is unduly burdensome and not reasonably calculated to lead to the discovery of admissible evidence. The Company's proposed Stranded Cost Recovery Fee is not based upon an analysis of the cost of service by class.
