SCHEDULE 7 RESIDENTIAL SERVICE

(Single phase or three phase where available)

1. **AVAILABILITY:**

1. This schedule is limited to residential service, which means service that is delivered through one meter to a single-family unit and is used principally for domestic purposes, even though such service may incidentally be used for nondomestic purposes. Electric Service for nondomestic use may be separately metered and served under the provisions of the applicable general service schedule, provided that such service does not include single-family units.

(O)

(O)

(I)

(I)

In addition, residential service means service to an adult family home, which means a residential home in which a person or persons provide personal care, special care, room, and board to more than one but not more than six adults who are not related by blood or marriage to the person or persons providing the services. In accordance with RCW 70.128.140(2), adult family homes must be considered as residential for utility rate purposes.

- 2. If this schedule is applied to transient occupancy in separately metered living units, billing shall be in the name of the owner on a continuous basis.
- 3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- Space conditioning and water heating capacities shall be energized in increments of 6 kW or less by a thermostat, low voltage relay, or suitable time delay equipment.
- 5. Customers requiring three-phase service under this schedule will be required to contribute the incremental cost of three-phase facilities to provide such service.

2. MONTHLY RATE:

Basic Charge: \$7.49 single phase or \$17.99 three phase

Energy Charge:

\$0.091362 per kWh for the first 600 kWh \$0.111197 per kWh for all over 600 kWh

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 7A

MASTER METERED RESIDENTIAL SERVICE

(Secondary Voltage or at available Primary distribution Voltage)

(Single phase or three phase where available)

1. **AVAILABILITY:**

1. This schedule is limited to master metered residential service, which is service delivered through one meter to multiple single-family units located in a structure of four (4) or more stories that are above ground level. Electric Service must be used principally for domestic purposes, but may incorporate incidental non-domestic use. Electric Service for non-domestic use may be separately metered and served under the provisions of the applicable general service schedule, provided that such service does not include single-family units.

(O)

(I)

- 2. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 3. Space conditioning and water heating capacities shall be energized in increments of 6 kW or less by a thermostat, low voltage relay, or suitable time delay equipment.
- 4. Customers requiring three-phase service under this schedule are responsible for the incremental costs of three-phase facilities to provide such service.

2. MONTHLY RATE - SECONDARY VOLTAGE:

Basic Charge: \$53.75 (I)

Demand Charge: No charge for the first 50 kW or less of Billing Demand

OCT-MAR APR-SEP

\$10.37 \$6.92 per kW for all kW over 50 kW of Billing Demand (I) (I)

Energy Charge:

OCTOBER-MARCH

\$0.093432 per kWh for the first 20,000 kWh (I)

\$0.064072 per kWh for all over 20,000 kWh

APRIL-SEPTEMBER

\$0.084048 per kWh for the first 20,000 kWh \$0.064072 per kWh for all over 20,000 kWh

Reactive Power Charge: \$0.00326 per reactive kilovolt ampere/hour (kvarh)

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 24 GENERAL SERVICE

(Secondary Voltage)
(Single phase or three phase where available)
(Demand of 50 kW or less)

1. AVAILABILITY:

- 1. This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is 50 kW or less.
- Customers whose metered Demand exceeds 50 kW twice during the most recent 12 consecutive months are not eligible for service under this schedule.
- 3. Customers with less than 12 months billing history and Billing Demand over 50 kW twice are not eligible for service under this schedule.
- 4. The Company shall not cause Customers who are principally residential and were taking service under this schedule on or before September 17, 1983, to take service under Schedule 7 of this tariff.
- 5. Deliveries at more than one point will be separately metered and billed.
- 6. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 7. Highly intermittent loads such as welders, X-ray machines, elevators, and similar loads which may cause undue lighting fluctuation shall not be served under this schedule unless approved by the Company.

2. MONTHLY RATES:

Basic Charge: \$10.11 single phase or \$25.69 three phase (I) (I)

Energy Charge:

OCTOBER-MARCH

\$0.093609 per kWh (I)

<u>APRIL-SEPTEMBER</u>

\$0.090369 per kWh

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 25 SMALL DEMAND GENERAL SERVICE

(Secondary Voltage)

(Single phase or three phase where available)
(Demand Greater than 50 kW but less than or equal to 350 kW)

1. **AVAILABILITY:**

- 1. This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is greater than 50 kW but less than or equal to 350 kW.
- Customers whose Billing Demand is 50 kW or below for eleven (11) of the most recent 12
 consecutive months or above 350 kW twice during the most recent 12 consecutive months are
 not eligible for service under this schedule.
- 3. Customers with less than 12 months billing history and Billing Demand over 350 kW twice are not eligible for service under this schedule.
- 4. Deliveries at more than one point will be separately metered and billed.
- 5. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 6. Highly intermittent loads such as welders, X-ray machines, elevators, and similar loads which may cause undue lighting fluctuation shall not be served under this schedule unless approved by the Company.

2. MONTHLY RATE:

Basic Charge: \$53.75 (I)

Demand Charge: No charge for the first 50 kW or less of Billing Demand

OCT-MAR APR-SEP

\$10.37 \$6.92 per kW for all over 50 kW of Billing Demand (I) (I)

Energy Charge:

OCTOBER-MARCH

\$0.093432 per kWh for the first 20,000 kWh

\$0.064072 per kWh for all over 20,000 kWh

APRIL-SEPTEMBER

\$0.084048 per kWh for the first 20,000 kWh (I)

(I)

\$0.064072 per kWh for all over 20,000 kWh

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 25 SMALL DEMAND GENERAL SERVICE (Continued)

(Secondary Voltage)

(Single phase or three phase where available)
(Demand Greater than 50 kW but less than or equal to 350 kW)

Reactive Power Charge: \$0.00326 per reactive kilovolt ampere/hour (KVARH)

(I)

(O)

- 3. **ADJUSTMENTS:** Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.
- 4. **BILLING DEMAND:** The highest Demand established during the month.
- 5. REACTIVE POWER CHARGE: The reactive power charge shall apply to only those electric loads with a maximum Demand of 100 kW or higher. However, the reactive power charge shall not apply to KVARH delivered to a Customer during a period when the Customer is operating their generating plant in regards to voltage and KVAR control in accordance with written direction for the period from the Company. The meter used for the measurement of KVARH shall be ratcheted to prevent reverse registration.
- 6. **GENERAL RULES AND PROVISIONS:** Service under this schedule is subject to the General Rules and Provisions contained in this tariff.

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 26 LARGE DEMAND GENERAL SERVICE

(Secondary Voltage or at available Primary distribution Voltage)

(Single phase or three phase where available)(Demand Greater than 350 kW)

1. **AVAILABILITY:**

- This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is greater than 350 kW.
- Customers taking service at Secondary Voltage and whose Billing Demand is 350 kW or below for eleven (11) of the most recent 12 consecutive months are not eligible for service under this schedule.
- Deliveries at Secondary voltage at more than one point will be separately metered and billed.
 Deliveries at Primary voltage to a Customer will be at one Point of Delivery for all service to that Customer on contiguous property.
- 4. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 5. Highly intermittent loads, such as welders, X-ray machines, elevators, and similar loads that may cause undue lighting fluctuation, shall not be served under this schedule unless approved by the Company.
- 6. For service at Primary voltage, all necessary wiring, transformers, switches, cut-outs and protection equipment beyond the Point of Delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.

2. MONTHLY RATE - SECONDARY VOLTAGE:

	Basic Charge:	\$108.66			((l)

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 29 SEASONAL IRRIGATION & DRAINAGE PUMPING SERVICE

(Single phase or three phase where available)

1. **AVAILABILITY:**

1. This schedule applies to any Customer whose seasonal electric energy requirements are used exclusively for the purpose of irrigation and/or drainage pumping of water on agricultural land used in production of plant crops, and who requires service at secondary voltage. To be eligible for service under this schedule, Customers must be qualifying agricultural irrigation or drainage pumping Customers pursuant to the Bonneville Power Administration's General Rate Schedule Provisions.

(O)

(O)

(1) (1)

- 2. Usage must be measured at the point of delivery and deliveries at more than one point will be separately metered and billed.
- 3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 4. Power loads which may cause undue fluctuations in electric service shall not be served under this schedule unless approved by the Company.

CO Od single phase or COE OC three phase

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 40

LARGE GENERAL SERVICE GREATER THAN 3 aMW (Continued)

(Single phase or three phase at the available Primary or Secondary distribution voltages)

c) Reactive Power Charge:

Primary Voltage Metering Point \$0.00110 per reactive kilovolt ampere-hour (kvarh) (I)
Secondary Voltage Metering Point \$0.00129 per reactive kilovolt ampere-hour (kvarh) (I)

3. Distribution Charges: The following Distribution Charges are applicable to Customers on Schedule 40 at the time the Commission approves the Distribution Charges in this Section 3 in a general rate case and to incremental new load through an existing Point of Delivery on an existing feeder of a Customer currently receiving service under Schedule 40.

Demand Charge: Customer specific charge calculated by dividing the distribution costs (Calculated according to the following procedures) by the estimated annual peak Coincident Billing Demand. The Demand charge will not be recalculated between rate cases for new load on existing feeders of Customers already on this schedule. Customers share of substation costs calculated as:

- i. The Customer's Demand on the substation divided by the total Demand on the substation multiplied by:
- ii. Substation Base Costs calculated using net book value at the time the Customer goes on to Schedule 40 multiplied by:
- iii. The sum of the Substation Fixed Charge Rate, the Substation O&M Charge Rate and the A&G Charge Rate as shown in A., B., and C. below.
 - A. Substation Fixed Charge Rate, as derived from the Fixed Charge Rate Model, based upon the dollar-weighted average remaining life of the substation equipment and 10.4563% for land.

(R)

(I)

(I) (I)

- B. Substation O&M Charge Rate of: 9.23%,
- C. A&G Charge Rate of 44% of the O&M rate, which is 4.0612% for substation costs.
- iv. The Substation Base Cost, the Substation Fixed Charge Rate, the Substation O&M Charge Rate and the A&G Charge Rate in general rate cases following a Customer first going on Schedule 40, will be adjusted as follows:
 - A. Substation Base Costs will be adjusted for substation equipment retired, and
 - B. The cost for new equipment will be added. The formula described in section 3.a)i. will then be applied to the updated Substation Base Costs.
 - C. The Substation Fixed Charge Rate will be adjusted for changes in the cost of capital and capital structure, taxes and insurance.
 - D. The Substation O&M Charge Rate will be adjusted based on the ratio of substation O&M to substation plant.
 - E. The A&G Charge Rate will be a function of the ration of the distribution A&G to distribution O&M.

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 40

LARGE GENERAL SERVICE GREATER THAN 3 aMW (Continued)

(Single phase or three phase at the available Primary or Secondary distribution voltages)

- b) Customer's share of Primary distribution lines calculated as:
 - i. The estimated net book value per mile of each distribution feeder and associated distribution facilities on which the Customer has over 3 aMW of load multiplied by:
 - ii. The number of miles on each distribution feeder between the Customer's meter(s) and the substation for each distribution feeder on which the Customer has over 3 aMW of load (the "Distribution Base Cost") multiplied by:
 - iii. The Customer's share of the peak load on the distribution feeder multiplied by:
 - iv. The sum of the Distribution Fixed Charge Rate and the Distribution O&M Charge Rate as shown in A. and B. below
 - A. Distribution Fixed Charge Rate, as derived from the Fixed Charge Rate Model, based upon the average remaining life of the feeder(s) used in the calculation of the Distribution Base Cost
 - B. Distribution O&M Charge Rate: (C)
 - 1. Overhead Feeder 21.85% (C)
 - 2. Underground Feeder 4.74% (C)
 - v. The Distribution Base Cost, the Distribution Fixed Charge Rate and the Distribution O&M Charge Rate in general rate cases following a Customer first going on Schedule 40, will be adjusted as follows:
 - A. Distribution Base Costs will be adjusted for estimates of any plant on the feeder(s)serving the Customer that has been retired.

(O)

- B. The cost for new investment to the feeder(s) serving the Customer will be added. The formula described in section 3.b)iii. (above) will then be applied to the updated Distribution Base Costs.
- C. The Distribution Fixed Charge Rate will be adjusted based on changes in the cost of capital and capital structure, taxes and insurance.
- D. The Distribution O&M Charge Rate will be adjusted based on the ratio of Distribution O&M to distribution plant.
- c) Customer's allocation of line transformer costs where service is at Secondary voltage and/or where the Company has agreed to provide rental transformers where the service is at Primary voltage
 - i. Based upon the Transformer Rental Schedule

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 40

LARGE GENERAL SERVICE GREATER THAN 3 aMW (Continued)

(Single phase or three phase at the available Primary or Secondary distribution voltages)

- 4. Distribution Charges: The following Distribution Charges are applicable to existing Schedule 40 Customers who add new service through a new Point of Delivery from a feeder through which the Schedule 40 Customer currently receives service at an existing Point of Delivery. (For incremental new load through an existing Point of Delivery on an existing feeder of a Customer currently receiving service under Schedule 40, the Distribution Charge calculated in Section 3 of this Schedule applies.) The following Distribution Charges also apply to new Schedule 40 Customers prior to calculation of the Distribution Charge applicable under Section 3 of this Schedule.
 - a) Customer specific Monthly Distribution Charge calculated by multiplying the monthly Energy usage by the applicable rate(s):
 - i. Primary Voltage consumption: \$0.011672 / kWh (R)
 - ii. Secondary Voltage consumption: (>350 kW peak Demand): \$0.009865 / kWh
 - iii. Secondary Voltage consumption: (<= 350 kW peak Demand): \$0.015012 / kWh (R)

ADJUSTMENTS:

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

COINCIDENT BILLING DEMAND:

Coincident Demand and Coincident Billing Demand refers to the coincident monthly 15 minute peak Demand of the Customer's meters for all accounts that qualify for Schedule 40 on the distribution feeder(s).

Billing Months of December through March: the highest Coincident Demand established during the Month shall be used for billing. Billing Months of April through November: the highest Coincident Demand established during the Month, but not less than 60 per cent of the highest Coincident Demand established during the previous peak winter season (billing Months of December through March) shall be used for billing.

Coincident Billing Demand will be calculated from interval metering where the Company determines that this would be cost effective; otherwise it will be the billed Demand adjusted for a coincidence factor established from a Customer study performed by the Company.

REACTIVE POWER CHARGE:

The reactive power charge shall apply only to those meters where the annual peak load is over 50 kW.

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 43

INTERRUPTIBLE PRIMARY SERVICE FOR TOTAL-ELECTRIC SCHOOLS (Continued)

(Single phase or three phase at the available Primary distribution voltage)

3.	MOI	IHT	V R	ATE:
J.		4 I I I I L		~! L.

Basic Charge: \$353.71 (I)

Demand Charge: \$4.94 per kW of Billing Demand (I)

Plus \$6.84 per kW of Critical Demand established in the preceding 11 months (I)

Energy Charge: \$0.060021 per kWh (I)

Reactive Power Charge: \$0.00312 per reactive kilovolt ampere-hour (kvarh) (I)

- 4. **ADJUSTMENTS:** Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.
- 5. **BILLING DEMAND:** The highest Demand established during the month.
- 6. **CRITICAL DEMAND:** The highest average 15-minute demand recorded between 5:00 p.m. and 8:00 p.m. on any day the Customer has been notified by the Company that power interruption is required, less a demand credit allowed at the rate of .6 watts per square foot of structure.
- 7. **REACTIVE POWER CHARGE:** The reactive power charge shall apply to only those electric loads with a maximum monthly Demand of 100 kW or higher. The meter used for the measurement of kvarh shall be ratcheted to prevent reverse registration.
- 8. **GENERAL RULES AND PROVISIONS:** Service under this schedule is subject to the General Rules and Provisions contained in this tariff.

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 46 HIGH VOLTAGE INTERRUPTIBLE SERVICE

(Three phase, delivery voltage of 50,000 volts or higher)

1. **AVAILABILITY:**

- This schedule applies to service that may be interrupted at the request of the Company to
 maintain or manage the integrity of its electrical system or to assist the Company in the
 management of energy supplies and resources for economic or other purposes subject to the
 terms and conditions described below.
- 2. Customer taking service under this Schedule must anticipate 210 hours of service interruption annually, as described in subsequent sections of this schedule.
- 3. Separate voltage arrangements with individual Customers may be required in instances where available high voltage delivery voltages are subject to change in accordance with the Company's programs for system improvements.

(O)

4. All necessary wiring, transformers, switches, cut-outs, and protection equipment beyond the Point of Delivery shall be provided, installed, and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.

2. MONTHLY RATE:

Demand Charge: \$2.95 per kVa of Billing Demand (I)

Energy Charge: \$0.052527 per kWh (R)

- 3. **ADJUSTMENT:** Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.
- 4. **BILLING DEMAND:** The highest average thirty minute Demand recorded during the month (but not less than 4,400 kVa), exclusive of Demand occurring on Sundays or between 12:00 midnight and 5:00 a.m.

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 46 HIGH VOLTAGE INTERRUPTIBLE SERVICE (Continued)

(Three phase, delivery voltage of 50,000 volts or higher)

5. **ANNUAL MINIMUM CHARGE:** The sum of the monthly bills in any period of twelve (12) consecutive months shall not be less than \$35.40 per kVa of the maximum Billing Demand established plus \$0.047274 per kWh consumed during the period.

(I) (R)

6. INTERRUPTION OF SERVICE:

- 1. Times and Durations of Interruptions: Electric Service shall be interrupted and suspended by Customer, as directed by the Company, between the hours of 8:00 a.m. and 12:00 noon and between 5:00 p.m. and 8:00 p.m. Monday through Saturday. Subject to paragraph 3 below, the duration of such interruption and suspension ("Suspension Period") shall be specified in the Company's notice to the Customer to initiate and maintain such interruption and suspension.
- 2. Notice Prior to Suspension Period: The Company shall provide the Customer reasonable advance notice of a Suspension Period; provided, however Company will provide Customer at least 14 hours advanced notice of a Suspension Period when such service interruption is for the Company to economically manage its energy supplies and resources. When Company notifies Customer of a service interruption for the Company to economically manage its energy supplies and resources, Company will provide customer with a non-binding estimate of the penalty per kWh to be assessed if Customer fails to interrupt and suspend service.
- 3. Limitations on Service Interruptions: Customer will not be required to interrupt and suspend Electric Service under this Schedule for more than 210 hours during any twelve-month period commencing on October 1 of each year; provided, however, no Customer will be required to interrupt and suspend Electric Service pursuant to this Schedule for more than 182 hours during any such twelve-month period for the sole purpose of Company management of energy supplies and resources for economic purposes. This maximum of 182 hours of interruption for Company management of energy supplies and resources for economic purposes shall also include hours used to test Customer's preparedness to interrupt and suspend service; provided, however, the Company will not institute any more than two such tests during the twelve month period.

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 49 HIGH VOLTAGE GENERAL SERVICE

(Three phase delivery voltage of 50,000 volts or higher)

1. **AVAILABILITY:**

- 1. Separate voltage arrangements with individual Customers may be required in instances where available high voltage delivery voltages are subject to change in accordance with the Company's programs for system improvements.
- 2. All necessary wiring, transformers, switches, cut-outs, and protection equipment beyond the Point of Delivery shall be provided, installed, and maintained by the Customer, and such facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.

2. MONTHLY RATE:

Demand Charge: \$5.48 per kVa of Billing Demand (I)

Energy Charge: \$0.052527 per kWh (R)

3. **ADJUSTMENTS:** Rates in the schedule are subject to adjustment by such other schedules in this tariff as may apply.

Issued: December 11, 2017 **Effective:** December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 50 (T)

LIMITED STREET LIGHTING SERVICE

AVAILABILITY: (O)

- 1. Compact Fluorescent Energy Only service hereunder is limited to Customers receiving service under this schedule as of May 30, 2014.
- Mercury Vapor Lighting Service hereunder is limited to Customers receiving service under this tariff
 at locations existing as of November 23, 1979. Code A service will be discontinued when
 replacement mercury vapor lamps are no longer available in the market.
- 3. No new installations or additions to existing systems or relocated fixtures will be served by the Company under this schedule.
- 4. This schedule applies to existing dusk-to-dawn compact fluorescent and mercury vapor lighting of streets, alleys, and other public thoroughfares with installations of at least five (5) lamps with Energy supplied from the Company's existing distribution system.

MONTHLY RATES PER LAMP:

(O)

Customer-Owned Energy Only Compact Fluorescent Lighting Service (Code B) (Billed as Schedule 003):

Lamp	
Wattage Montl	thly Rate
22 Watt \$	\$0.71

Customer-Owned Mercury Vapor Lighting Service (Code A):

Lamp	
•	
Wattage	Monthly Rate
100 Watt	\$5.55
175 Watt	\$7.98
400 Watt	\$15.26

Customer-Owned Energy Only Mercury Vapor Lighting Service (Code B):

<u> </u>	milea Energy on
Lamp	
Wattage	Monthly Rate
100 Watt	\$3.24
175 Watt	\$5.66
400 Watt	\$12.95
700 Watt	\$22.65

SPECIAL TERMS AND CONDITIONS:

(O)

1. <u>Installation and maintenance of Customer-Owned systems</u>: A system installed and wholly owned by the Customer shall conform to the Company's specifications for such type of system in effect at the time of installation and shall have been installed without expense to the Company.

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

Issued By Puget Sound Energy

SCHEDULE 50 LIMITED STREET LIGHTING SERVICE (Continued)

(T)

(O)

(C)

- 6. Other Loads on Lighting System: Unmetered service under this schedule shall only be used for the lighting specified in the Monthly Rates section of this schedule. Where installations include provisions for other or additional usage, such as electric outlets (festoon outlets), they must be metered and billed under the appropriate general service schedule.
- 7. Removal of Lights: The Customer shall notify the Company of all removals of Customer owned lights on a timely basis. This notification shall include lights to be removed from the Customer's billing due to annexation or other transfer to another Customer.
- 8. <u>Billing Information to Be Provided by the Company</u>: For each type and wattage of light the Company shall provide the total number of lights billed and the total dollar amount for the month by lamp size range and type.
- 9. Audit: The Company may from time to time, at its discretion, audit the Customer's installations. In the event discrepancies are discovered in the audited sample, the Company may audit the entire Customer system. If the audit shows that the Customer has unduly added lights or other lighting facilities without the Company's consent, the audit will be at the expense of the Customer and all lights and lighting facilities not included or included at an incorrect size or type will be billed effective from the first date of connection, if ascertainable, or for the last 3 years, whichever is less. If the audit shows that the Customer has reduced the number of lights or lighting facilities in use, the audit will be at the expense of the Company, and the Customer will get a credit effective from the first date of removal from service.
- 10. Conversion of Lights to Sodium Vapor or Light Emitting Diode (LED): Sodium vapor and LED luminaries are more efficient than mercury vapor therefore the Company is encouraging the conversion of mercury vapor lights to sodium vapor or LED luminaires by allowing Schedule 50 mercury vapor lights, once converted by the Customer, to take service under Schedule 53 or Schedule 54, as applicable. Where sufficient working clearances do not exist, service must be taken under Schedule 53 with the Company supplying maintenance. The Customer shall bear all costs of conversion.

Issued: December 11, 2017 Effective: December 19, 2017

SCHEDULE 51 LED (Light Emitting Diode) LIGHTING SERVICE (Continued) COMPANY OWNED

Facilities Charges:

Amounts of the facilities charges:

Option A: 1.525% times the Estimated System Cost per month.

(I)

Under Option A the Customer makes no payment up-front. The monthly facilities charge covers taxes, depreciation, insurance, return and routine maintenance. At any time, upon notice to the Company, the Customer may pay the unamortized balance of the Estimated Installed Cost and thereafter pay the monthly facilities charge under Option B for the remainder of the term.

Option B: 0.232% times the Estimated System Cost per month.

(I)

The Customer shall pay the Estimated Installed Cost up-front, prior to the installation of the lighting system. The monthly facilities charge covers routine maintenance.

SPECIAL TERMS AND CONDITIONS:

- 1. Notification of Inoperable Lights: For lights where the Company provides routine maintenance, it shall be the responsibility of the Customer to notify the Company of LED lights that are not working. Upon notification, within seventy-two (72) hours, excluding Saturdays, Sundays and holidays, the Company will investigate and take corrective action if such action is the responsibility of the Company. If such Company investigation/corrective action is not taken within seventy-two (72) hours for each such light, the Customer's billing shall be credited an amount equal to the monthly Lamp Charges normally billed for that light. This seventy-two (72) hour guarantee of service is in lieu of the provisions of Schedule 130 which are not available under this schedule. The Company will be excused from providing maintenance service within seventy-two (72) hours in the event of significant adverse events, such as storms, earthquakes, or other events beyond the Company's control including those enumerated in Schedule 80, paragraph 12.a of this tariff.
- 2. <u>Hours of service</u>: Service under this schedule is for dusk-to-dawn lighting, or lighting service for the average number of hours of darkness per month (approximately 4,200 hours per year).

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

Issued By Puget Sound Energy

SCHEDULE 51 LED (Light Emitting Diode) LIGHTING SERVICE (Continued) COMPANY OWNED

- 6. Other Loads on Lighting System: Where unmetered lighting circuits include provisions for other or additional usage such as electric outlets (festoon outlets) the Company may require that service be metered and billed under the appropriate general service schedule.
- 7. <u>Billing Information to be Provided by the Company</u>: For each type and wattage of light the Company shall provide the total number of lights billed and the total dollar amount for the month by lamp size range and type.

(C)

- 8. Ownership of Facilities: The Company shall own, operate, and maintain all facilities installed under this schedule.
- 9. Non-Standard Equipment: Non-Standard Equipment ("Non-Standard Equipment") is defined herein as: equipment which is not standard to the Company and not included in the Company's inventory for maintenance. LED luminaires are considered to be Non-Standard Equipment until the Company decides otherwise and modifies this provision indicating such decision. Non-Standard Equipment (including but not limited to poles, arms and luminaires) installed under this Schedule is subject to the following conditions.
 - a. Non-Standard Equipment will not be kept in the Company's inventory for the purpose of maintenance. The Customer may choose to keep an inventory of such Non-Standard Equipment and make it available to the Company. If the Customer inventory is made available to the Company at costs that the Company would otherwise pay for such equipment, the Company will use the Customer inventory and reimburse the Customer for materials used within thirty days after receipt of a bill therefore.
 - b. If Non-Standard Equipment is not available for maintenance from the Customer as described in 9.a. above, and it is necessary to provide temporary lighting service when requested by the Customer in writing, the Customer shall be responsible for all costs the Company incurs for such temporary facilities. Temporary lighting service may be service with a high pressure sodium luminaire if requested in writing by the Customer. The Customer shall reimburse the Company for such costs within thirty (30) days after receipt of a bill therefore. If Non-Standard Equipment is not available for maintenance, the Company will not be obligated to comply with paragraphs 1 and 2 of the Special Terms and Conditions section of this schedule.

Issued: December 11, 2017 Effective: December 19, 2017

SCHEDULE 53 STREET LIGHTING SERVICE (Continued)

(O)

COMPANY AND CUSTOMER-OWNED LIGHTS - TERMS AND CONDITIONS:

- 1. Notification of Inoperable Lights: For lights where the Company provides routine maintenance, it shall be the responsibility of the Customer to notify the Company of lights that are not working. Upon notification, within seventy-two (72) hours, excluding Saturdays, Sundays and holidays, the Company will investigate and take corrective action if such action is the responsibility of the Company. If such Company investigation/corrective action is not taken within seventy-two (72) hours for each such light, the Customer's billing shall be credited an amount equal to the monthly rate per lamp normally billed for the same wattage and type of Schedule 54 lamp or in the case of LED lights, the amount of the bill calculated on a per kWh per month basis. This seventy-two (72) hour guarantee of service is in lieu of the provisions of Schedule 130 which are not available under this schedule. The Company will be excused from providing maintenance service within seventy-two (72) hours in the event of significant adverse events, such as storms, earthquakes, or other events beyond the Company's control including those enumerated in Schedule 80, paragraph 12.a. of this tariff.
- 2. Other Loads on Lighting System: Where unmetered lighting circuits include provisions for other or additional usage such as electric outlets (festoon outlets) the Company may require that service be metered and billed under the appropriate general service schedule.
- 3. <u>Billing Information to be Provided by the Company:</u> For each type and wattage of light the Company shall provide the total number of lights billed and the total dollar amount for the month by lamp size range and type.

(C)

- 4. <u>Hours of Service</u>: Service under this schedule is for dusk-to-dawn lighting, or lighting service for the average number of hours of darkness per month (approximately 4,200 hours per year).
- 5. <u>Line Extensions:</u> The Company's primary or secondary distribution circuits will be extended by the Company for service under this schedule at the Customer's expense.

SCHEDULE 54 (T)

CUSTOMER-OWNED STREET LIGHTING ENERGY SERVICE SODIUM VAPOR AND LED

(O)

(O)

Rate per Month

AVAILABILITY: (O)

- 1. This schedule is available to municipalities, agencies, or subdivisions of government or community associations and similar organizations and applies to electric energy for dusk-to-dawn sodium vapor or Light Emitting Diode (LED) lighting of streets, alleys, and other public thoroughfares which can be served from the Company's existing distribution system, with the following limitations.
- 2. After June 1, 1998, service is available only to those Customers who are receiving service under this schedule as of June 1, 1998.
- 3. After June 1, 1999, no new installations or additions to existing systems or relocated fixtures will be served by the Company. However, existing Schedule 54 installations may be converted to LED service and existing Schedule 50 mercury vapor luminaries, once converted to sodium vapor or LED may be transferred to billing under Schedule 54, subject to the terms of Schedule 50 and herein.

SCHEDULE 54 CUSTOMER-OWNED STREET LIGHTING ENERGY SERVICE (Continued) SODIUM VAPOR and LED

- 6. Removal of Lights: The Customer shall notify the Company of all removals of Customer-owned lights on a timely basis. This notification shall include lights to be removed from the Customer's billing due to annexation or transfer of another customer.
- 7. Other Loads on Lighting System: Where unmetered lighting circuits include provisions for other or additional usage, such as electric outlets (festoon outlets), the Company may require that service be metered and billed under the appropriate general service schedule.
- 8. Audit: The Company may from time to time, at its discretion, audit the Customer's installations. In the event discrepancies are discovered in the audited sample, the Company may audit the entire Customer system. If the audit shows that the Customer has unduly added lights or other lighting facilities without the Company's consent, the audit will be at the expense of the Customer and all lights and lighting facilities not included or included at an incorrect size or type will be billed effective from the first date of connection, if ascertainable, or for the last three (3) years, whichever is less. If the audit shows that the Customer has reduced the number of lights or lighting facilities in use, the audit will be at the expense of the Company, and the Customer will get a credit effective from the first date of removal from service.
- 9. <u>Billing Information to Be Provided by the Company</u>: For each type and wattage of light, the Company shall provide the total number of lights billed and the total dollar amount for the month by lamp size range and type.

(C)

(O)

10. <u>Tree Trimming</u>: It shall be the responsibility of the Customer to provide tree trimming services in areas that are below the height of luminaires installed under this schedule except when luminaires are installed within the area of energized electrical wires that is restricted to qualified utility workers. The Company shall be responsible for tree trimming within this restricted area.

ADJUSTMENTS: Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply. The adjusting schedules that apply to this schedule are the same as those adjusting schedules that are applicable to all lighting schedules. For sizes or types of lights not listed in the adjusting schedule the adjustment rates are to be based on the same average rate per kWh that is applicable to all other lighting schedules.

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

By Authority of Order 08 of the Washington Utilities and Transportation Commission in Dockets UE-170033 & UG-170034

SCHEDULE 55 (T) **AREA LIGHTING SERVICE** (O)

1. **AVAILABILITY:** (T)

- 1. This schedule applies to dusk-to-dawn lighting where 120 volt service is existing on the Company owned and installed pole upon which the fixture is to be installed. Where such secondary voltage service or pole is not available, service under this schedule will be available upon payment of the costs to provide such pole and/or secondary voltage service or pole and service as provided herein.
- 2. For lights installed prior to November 1, 1999, service is for a term of twelve (12) months and removal charges do not apply. For lights and/or poles installed after November 1, 1999, service under this schedule for periods of less than eight (8) years is subject to charges for removal as provided herein, unless a subsequent Customer requests service.
- 3. Service under this schedule will be discontinued if the distribution facilities being utilized to serve are removed due to a conversion of such facilities to an underground system.
- 4. For lighting facilities installed after November 1, 1999, where necessary, the Customer shall obtain for, or grant to, the Company necessary permits or operating rights to place lighting facilities without expense to the Company. In conditions where it is necessary to place any lighting facilities on private property, the Customer shall obtain and furnish suitable easements without expense to the Company.

3. FACILITIES CHARGE: The Company's facilities will be extended to provide secondary voltage service to an existing pole or to a thirty foot wood pole (installed for the purpose of area lighting) at locations where such pole and/or service is not available under the following terms:

(T)

<u>Facilities installed prior to November 20, 1975</u>: Customers served by facilities extended prior to this date shall be subject to a charge of \$6.24 per month for each pole required for such extension.

(I)

<u>Facilities installed after November 1, 1999</u>: Customers served by a 30 foot wood pole installed after this date shall have the option of paying the full cost of the extension and pole up front or shall be subject to a charge of \$10.16 per month for each pole required for such extension. The cost of all other extensions of facilities to provide secondary voltage service shall be paid in advance of service.

(I)

4. SPECIAL TERMS AND CONDITIONS:

(T)

Ownership and Operations: The Company will own, operate, and maintain the
facilities for supplying area lighting service utilizing its overhead circuits in accordance
with the Company's standards. The Company will furnish the necessary energy,
repairs, and maintenance. Repairs and maintenance work will be performed by the
Company as required during regularly scheduled working hours of the Company.

SCHEDULE 58 Flood Lighting Service

(T)

1. **AVAILABILITY:**

(T)

- 1. This schedule applies to dusk-to-dawn flood lighting of private property where 120 volt service is existing on the pole upon which the fixture is to be installed. Where such secondary voltage service or pole is not available, service under this schedule will be available upon payment of the costs to provide such secondary voltage service or pole and service as provided herein.
- 2. For lights installed prior to Nov. 1, 1999, service is for a term of twelve (12) months and removal charges do not apply. For lights and/or poles installed after Nov. 1, 1999, service under this schedule is effective for a period of eight (8) years after installation of Company-owned facilities, unless (a) a subsequent customer requests service or (b) the facilities are removed, whereupon appropriate removal charges shall be paid.
- 3. Service under this schedule will be discontinued if the distribution facilities being utilized to serve are removed due to a conversion of such facilities to an underground system.
- 4. For lighting facilities installed after Nov. 1, 1999, where necessary, the customer shall obtain for, or grant to, the Company necessary permits or operating rights to place lighting facilities without expense to the Company. In conditions where it is necessary to place any lighting facilities on private property, the customer shall obtain and furnish suitable easements without expense to the Company.

SCHEDULE 58 (T)

(O)

(1)

FLOOD LIGHTING SERVICE (CONTINUED)

3. FACILITIES CHARGE: (T)

The Company's facilities will be extended to provide secondary voltage service to an existing pole or to a thirty foot wood pole (installed for the purpose of area lighting) at locations where such pole and/or service is not available under the following terms:

Facilities installed after November 1, 1999: Customers served by a 30 foot wood pole installed after this date shall have the option of paying the full cost of the extension and pole up-front or shall be subject to a charge of \$10.16 per month for each pole required for such extension. The cost of all other extensions of facilities to provide secondary voltage service shall be paid in advance of service.

4. SPECIAL TERMS AND CONDITIONS:

(T)

- 1. Ownership & Operations: The Company will own, operate, and maintain the facilities for supplying flood lighting service utilizing its overhead circuits in accordance with the Company's standards. The Company will furnish the necessary energy, repairs, and maintenance. Repairs and maintenance work will be performed by the Company as required during regularly scheduled working hours of the Company.
- 2. Notification of Inoperable Lights: It shall be the responsibility of the Customer to notify the Company of lights that are not working. Upon notification, within seventy-two (72) hours, excluding Saturdays, Sundays and holidays, the Company will investigate and take corrective action if such action is the responsibility of the Company. If such Company investigation/corrective action is not taken within seventy-two (72) hours for each such light, the Customer's billing shall be credited an equal amount to the monthly Lamp Charges normally billed for that light. This seventy-two (72) hour guarantee of service is in lieu of the provisions of Schedule 130 which are not available under this schedule. The Company will be excused from providing maintenance service within seventy-two (72) hours in the event of significant adverse events, such as storms, earthquakes, or other events beyond the Company's control including those enumerated in Schedule 80, paragraph 12.a. of this tariff.
- 3. Hours of Service: Service under this schedule is for dusk-to-dawn lighting, or lighting service for the average number of hours of darkness per month (approximately 4,200 hours per year).

SCHEDULE 129 LOW INCOME PROGRAM

AVAILABILITY/APPLICABILITY: The benefits available under this Low Income Program ("Program") (as approved in Docket Nos. UE-011570 and UG-011571) are available to Customers of the Company meeting the criteria described herein. The charges under this schedule apply to all Customers of the Company.

BENEFITS:

- 1. Benefits under this Program are available through designated agencies (herein "Agencies") that: a) meet the criteria for a "Qualifying Organization" as defined in RCW 82.16.0497, b) the Company accepts as capable of performing necessary obligations under this Program, and c) executes a contract with the Company that is: i) consistent with this schedule, ii) provides for periodic auditing, and iii) provides for an annual administration evaluation. The Agencies will ascertain whether specific Customer households seeking assistance with their electric bills are eligible for assistance under the Program.
 - a. The Agencies will determine whether a Customer meets the federal definition for Low Income Home Energy Assistance Program ("LIHEAP") qualification.
 - i) If the Customer is eligible, it will receive LIHEAP funds in lieu of funds under this Program unless or until LIHEAP funds are exhausted. Thereafter, the Customer will be considered for this Program.
 - ii) If the Customer is not eligible to receive LIHEAP funds, but meets the Company criteria, the Customer will be considered for this Program.
 - iii) If the Customer meets all applicable criteria, the Customer will be eligible to receive assistance under the Company's Program or Customers may voluntarily choose to participate in a Time of Day Discount assistance program (Schedules 308 and 309).
 - b. Total Benefits for the program year (where Total Benefits is equal to benefits to eligible Customers under this Program plus the Agencies' administrative fees and the Company's program costs) under this Program and the Total Benefits of the Program under the Company's natural gas tariff are subject to a combined Annual Cap of \$23.510 million (pro-rata portion for (I) (C) current program year ending September 2018 is \$18,422,999), provided that Total Benefits not expended in one program year will be included in Total Benefits for the following program year and be allocated along with funding for the current program year. The Annual Cap for the program year is allocated into Annual Caps of \$18.547 million (pro-rata portion is \$14,739,792) (I) (C) for electric and \$4.963 million (pro-rata portion is \$3,683,207) for natural gas Low Income (R)(C) Programs. Total Benefits are equal to the Annual Caps plus carry-over of funds not expended in (K) the prior year. ı I

Issued By Puget Sound Energy

Ken Johnson

SCHEDULE 129 LOW INCOME PROGRAM (Continued)

A qualifying Customer may receive assistance through this Program once during a program year.	(M)
Customers shall be requalified annually by one of the Agencies (except where noted otherwise). Total	I
benefits to an individual eligible Customer under this program are subject to an annual cap equal to the	I
LIHEAP cap (currently \$1,000.00).	(M)
INCOME ELIGIBILITY CRITERIA: Beginning May 1, 2018, eligibility will be restricted to "very low-	(C)
income households" defined as households not exceeding 150% of Federal Poverty Level (FPL)	1
guidelines. Beginning October 1, 2018, Agencies may allow senior, disabled, and other steady-income	I
customers to certify their Program eligibility for a two-year period. Such customers must meet the	1

(T)

I

(C)

(I)

INFORMATION SERVICES:

BENEFITS: (Continued)

- 1. Agencies will provide qualifying Customers with the following education and information.
 - a. Low-income weatherization program information.
 - b. Personal Energy Management (PEM) and, if applicable, Time of Day rate education.

existing Program criteria and elect to certify eligibility for two years after demonstrating a steady income

that meets 150% of the federal poverty level, established by steady-income payment documentation.

- c. Information on deferred payment arrangements and budget billing.
- d. Conservation education and information.
- The Company will provide qualifying Customers with the following information.
 Information to Customers dealing with delinquent utility bills on how to access low-income assistance.

FUNDING:

- There will be a prescribed agency administrative fee structure based on actual costs to local
 contractors to operate the LIHEAP program in Washington State. The administrative fees paid to
 Agencies will be considered part of the Total Benefits paid under this Program. Funding of benefits
 under this Program will be allocated in the Company's service area proportionate to LIHEAP
 payments to PSE for electricity in the most recent LIHEAP fiscal year.
- 2. There will be a surcharge on all electric Energy (kWh) and all natural gas Energy (therms) to all customer classes that will be subject to an annual true-up to reflect changes in billing determinants so that the Annual Cap of \$23.510 million under the natural gas and electric Low Income Programs are equal to the Funding amounts collected by this schedule plus the Natural Gas Schedule 129, minus the effect of all of the Company's revenue sensitive costs such as taxes.
- (M) Transferred from Sheet No. 129

Issued: December 11, 2017 Effective: December 19, 2017

SCHEDULE 142 (T) (O)

REVENUE DECOUPLING ADJUSTMENT MECHANISM (CONTINUED)

4. **DECOUPLING MECHANISM** (Continued):

1. Delivery Revenue Decoupling Calculation (Continued): (T)

b. The Delivery Revenue Decoupling Adjustment reconciles on a monthly basis, and separately for Rate Groups 5 and 6, differences between (i) the monthly Actual Delivery Revenue resulting from applying the following Delivery Revenue per Unit for Customers serviced under each schedule in each season to their seasonally differentiated kW demands, and (ii) the Allowed Delivery Revenue that would be collected by applying the Monthly Allowed Delivery Revenue Per Customer (see 4.1.d. below) by the active number of Customers in each group for each month.

Del	ivery Revenue Per Unit (\$/kW-	month)	
	Sea	son	
Schedules	Winter (OctMar.)	Summer (AprSep.)	(T)
12 & 26	\$12.47	\$8.32	(I) (I)
10 & 31	\$11.56	\$7.70	(D) (I) (I)

c. The difference resulting when the Actual Delivery Revenue is subtracted from the Allowed Delivery Revenue is accrued monthly in the Delivery Revenue Decoupling Adjustment Balancing Account. The monthly amount accrued will be divided into subaccounts so that net accruals for each Rate Group can be tracked separately. The subaccounts will accrue interest at a rate equal to that determined by the Federal Energy Regulatory Commission pursuant to 18 CFR 35.19a.

d. Monthly Allowed Delivery Revenue Per Customer:

	Rate G	roup 1	
Month		Month	
January	\$41.54	July	\$23.49
February	\$35.21	August	\$22.77

SCHEDULE 142 REVENUE DECOUPLING ADJUSTMENT MECHANISM (Continued)

6. MONTHLY DECOUPLING SURCHARGE RATES: The rates shown below for each schedule shall be added to the monthly rate(s) for each schedule identified thereby changing the rate charged for electric service. Customer bills shall reflect the sum of this Schedule 142 rate and the rate(s) otherwise charged for electric service.

	Delivery Revenue	Fixed Power Cost	Schedule 142 Total
SCHEDULE / Component	Decoupling Rate	Revenue Decoupling	Effective Rate
7 / Energy Charge	\$0.001201	\$0.00000	\$0.001201 per kWh
8 & 24 / Energy Charge	\$0.001335	\$0.00000	\$0.001335 per kWh
7A, 11, 25, 29, 35 & 43 /	\$0.001335	\$0.00000	\$0.001335 per kWh
Energy Charge			
40 / Energy Charge	\$0.001335	\$0.00000	\$0.001335 per kWh
46 & 49 / Energy Charge	\$0.001335		\$0.001335 per kWh
12 & 26 / Energy Charge		\$0.000000	\$0.000000 per kWh
12 & 26 / Demand Charge	(\$0.17)		(\$0.17) per kW
10 & 31 / Energy Charge		\$0.00000	\$0.000000 per kWh
10 & 31 / Demand Charge	(\$0.04)		(\$0.04) per kW

- 7. **ADJUSTMENTS:** Rates in this schedule and those rates reflected in the schedules for electric service to which this mechanism applies, as listed in the Applicability section above, are subject to adjustment by such other schedules in this tariff as may apply.
- 8. **GENERAL RULES AND PROVISIONS:** Service under this schedule is subject to the General Rules and Provisions in this tariff (Schedule 80) as they may be modified from time to time and other schedules of such tariff that may apply as they may be modified from time to time.

SCHEDULE 458 BACK-UP DISTRIBUTION SERVICE

AVAILABILITY:

- 1. This schedule establishes a charge for use of the Company's distribution system by Non-Core Customers taking service under Schedule 448 and whose electrical energy and/or capacity service requirements are met, in whole or in part, from Self-Generation. This schedule does not cover energy or capacity services. A Non-Core Customer who purchases back-up distribution service for its load at a location pursuant to this schedule shall not be required to purchase distribution service pursuant to Schedule 448 for the same load at the same location.
- 2. This schedule is not applicable to the extent Self-Generation is employed only for emergency supply during utility outage.
- 3. Back-up distribution service shall be made available at the Non-Core Customer's Point(s) of Delivery, at the Company's applicable available voltage. The Company will stand ready to provide back-up distribution service at all times, including during Scheduled Outage Periods. The Company may, in its discretion, make back-up distribution service available at more than one Point of Delivery or at more than one voltage and phase, but such service may be separately metered and billed. Separate or combined billing will be at the discretion of the Company. Back-up distribution service is not available for resale, shared service, intermittent or highly fluctuating loads, or seasonal use.

SCHEDULE 458 BACK-UP DISTRIBUTION SERVICE (Continued)

(O)

(D)

Dedicated Facility Charges:

Dedicated facilities, including, but not limited to, interconnection facilities constructed for the Non-Core Customer or extra meters and communication lines needed to measure the Non-Core Customer's Self-Generation will, to the extent not charged for under Schedule 449, be charged to the Non-Core Customer separately. Revenue associated with service under this schedule is not eligible for inclusion in the calculation of the margin allowance provision under Schedule 85-Line Extensions.

Unit Management Services Charges:

Any costs incurred by the Company, at the request of the Non-Core Customer, in providing engineering, analytical, accounting, operating, maintenance or other services will be charged to the Non-Core Customer separately. These costs may include, but are not limited to, costs associated with data retrieval and preparation, engineering and operations analysis and applicable associated overheads.

DEFINED TERMS:

- Non-Core Customer A Customer of the Company who has forever released, relinquished, and
 discharged any right to, claim to, or benefits of the Company's generation resources, including the right
 to power produced by such resources, whether or not priced at the Company's cost of producing such
 power, at one or more of the Customer's facilities. Non-Core Customers shall be served under
 Schedule 448 or Schedule 449.
- 2. Self-Generation One or more sources of electrical energy and/or capacity installed and operated by the Non-Core Customer pursuant to Section 3 of Schedule 448. For purposes of this Schedule, Self-Generation does not include electrical energy and/or capacity generated by Non-Core Customer for delivery to or use by any person or entity other than the Non-Core Customer.
- 3. **Point(s) of Delivery** The location(s) on the Non-Core Customer's premises where the Company's system and Non-Core Customer's circuits are interconnected.
- 4. Scheduled Outage Period A period of time used for routine, prescheduled maintenance of one or more Self-Generation units by the Non-Core Customer, where the Company provides some or all of the Non-Core Customer's electric energy service requirements. Scheduled Outage Periods must be scheduled at least one month in advance and be at times mutually agreeable to the Non-Core Customer and the Company to coincide with Company non-peak periods. During this time period the Non-Core Customer will be charged the Demand charge of the applicable standard schedule of this tariff for maintenance Demand.

Issued: December 11, 2017 Effective: December 19, 2017

Advice No.: 2017-24

SCHEDULE 459 BACK-UP DISTRIBUTION SERVICE

AVAILABILITY:

- 1. This schedule establishes a charge for use of the Company's distribution system by Non-Core Customers taking service under Schedule 449 and whose electrical energy and/or capacity service requirements are met, in whole or in part, from Self-Generation. This schedule does not cover energy or capacity services. A Non-Core Customer who purchases back-up distribution service for its load at a location pursuant to this schedule shall not be required to purchase distribution service pursuant to Schedule 449 for the same load at the same location.
- 2. This schedule is not applicable to the extent Self-Generation is employed only for emergency supply during utility outage.
- 3. Back-up distribution service shall be made available at the Non-Core Customer's Point(s) of Delivery, at the Company's applicable available voltage. The Company will stand ready to provide back-up distribution service at all times, including during Scheduled Outage Periods. The Company may, in its discretion, make back-up distribution service available at more than one Point of Delivery or at more than one voltage and phase, but such service may be separately metered and billed. Separate or combined billing will be at the discretion of the Company. Back-up distribution service is not available for resale, shared service, intermittent or highly fluctuating loads, or seasonal use.

SCHEDULE 459 BACK-UP DISTRIBUTION SERVICE (Continued)

(D)

Dedicated Facility Charges:

Dedicated facilities, including, but not limited to, interconnection facilities constructed for the Non-Core Customer or extra meters and communication lines needed to measure the Non-Core Customer's Self-Generation will, to the extent not charged for under Schedule 449, be charged to the Non-Core Customer separately. Revenue associated with service under this schedule is not eligible for inclusion in the calculation of the margin allowance provision under Schedule 85-Line Extensions.

Unit Management Services Charges:

Any costs incurred by the Company, at the request of the Non-Core Customer, in providing engineering, analytical, accounting, operating, maintenance or other services will be charged to the Non-Core Customer separately. These costs may include, but are not limited to, costs associated with data retrieval and preparation, engineering and operations analysis and applicable associated overheads.

DEFINED TERMS:

- Non-Core Customer A Customer of the Company who has forever released, relinquished, and discharged any right to, claim to, or benefits of the Company's generation resources, including the right to power produced by such resources, whether or not priced at the Company's cost of producing such power, at one or more of the Customer's facilities. Non-Core Customers shall be served under Schedule 448 or Schedule 449.
- Self-Generation One or more sources of electrical energy and/or capacity installed and
 operated by the Non-Core Customer pursuant to Section 3 of Schedule 449. For purposes of
 this Schedule, Self-Generation does not include electrical energy and/or capacity generated by
 Non-Core Customer for delivery to or use by any person or entity other than the Non-Core
 Customer.
- 3. **Point(s) of Delivery** The location(s) on the Non-Core Customer's premises where the Company's system and Non-Core Customer's circuits are interconnected.
- 4. Scheduled Outage Period A period of time used for routine, prescheduled maintenance of one or more Self-Generation units by the Non-Core Customer, where the Company provides some or all of the Non-Core Customer's electric energy service requirements. Scheduled Outage Periods must be scheduled at least one month in advance and be at times mutually agreeable to the Non-Core Customer and the Company to coincide with Company non-peak periods. During this time period the Non-Core Customer will be charged the Demand charge of the applicable standard schedule of this tariff for maintenance Demand.
