Subject: Puget Sound Energy Integrated Resource Plan (UE-120767)

Chairperson Danner, Washington Utilities and Transportation Commission: As a customer of PSE, I believe you must include the estimated social and economic cost of carbon in any final Integrated Resource Plan submitted to your commission. I am committed to investing in clean, renewable energy and ending our use of fossil fuels. We all must prepare for a carbon-constrained future, and I ask that all final recommendations in the IRPs coming before the UTC include a broad examination of carbon pollution, new federal air quality standards, and other environmental costs associated with the continued operation of the Colstrip facility. The environment is national security; pollution is treason. Signed,

Danny Dyche
