**To:** [Public Involvement \(UTC\)](#)  
**Subject:** Thank you for protecting WA's Clean Energy Future  
**Date:** Tuesday, December 3, 2019 10:12:27 AM

---

Dear Washington UTC,

Please protect our clean energy future. That includes not letting the Port of Tacoma becoming a fossil fuel exporting center. I am distressed by the implications of the LNG plant i.e. the plan to bring in fracked gas down from Canada, putting a pipeline down our beautiful Cascade Mountains, not presenting about the long range impact etc, etc, etc. we are better then this. Thank you.

This is a comment for Docket # UE 190698.

As a Washington State ratepayer, I am strongly in support of effective public accountability and engagement for investor-owned utilities. I am excited for Washington's Clean Energy Transformation Act (CETA) to take effect, and appreciate your role in making sure that the implementation of this law delivers on its intended vision of a state powered by 100% clean energy.

With that in mind, I would like to make a comment on the importance of public participation in energy planning. Integrated Resource Plans have been a powerful tool for public input here in Washington State, and it has allowed customers to advocate for clean, transparent, and equitable energy decisions. These planning sessions are one of the few oversight and watchdog opportunities we get. Please keep the requirement that they happen every two years rather than every four, as proposed.

As a ratepayer and concerned resident, I thank you for representing my interests and making sure utilities are accountable to the public.

Sincerely,

Linda Fortune  
4114 N 30th St
