2. WAC 480-123-130(1)(b) - Use of Support

The funds received by the Company from the universal communications services program in calendar year 2017 represents monies that the Company formerly received through the Washington Exchange Carrier Association (WECA) pooling process and the reduction of support under the Federal Communications Commission's (FCC's) Connect America Fund InterCarrier Compensation Fund (CAF ICC) program. As such, the funds from the universal communications services program contributed to defrayal of the ongoing operation and maintenance expenses of the Company. The funds from the universal communications services program are contributing to the Company's ongoing provision of high-quality basic telecommunications service to customers residing in the area the Company serves.

In December 2017, the Company received \$277,186 from the universal services communications program for the fiscal year ending June 30, 2018 which represents monies that the Company formerly received through the WECA pooling process and the reduction of support under the FCC's CAF ICC Program.

During the first six months of 2018 the Company undertook the several projects that were not yet complete at the filing of this report. These projects will be included in the next section. The funds received from the universal communications services program can be viewed as contributing to the Company's ability to perform these projects.
