

REPORT OF SKYLINE TELECOM INC COMPANY UNDER THE
WASHINGTON UNIVERSAL COMMUNICATIONS SERVICES PROGRAM
IN COMPLIANCE WITH WAC 480-123-130

July 1, 2019

Docket No. UT-180642

File electronically

1. WAC 480-123-130(1)(a) - Access Lines Served [NECA 1.3 working loops]

	January 1, 2018	December 31, 2018
Residential	_____89_____	_____87_____
Business	_____18_____	_____15_____

2. WAC 480-123-130(1)(b) - Use of Support

The funds received by the Company from the universal communications services program in calendar year 2018 represent monies that the Company formerly received through the Washington Exchange Carrier Association (WECA) pooling process and the reduction of support under the Federal Communications Commission's (FCC's) Connect America Fund InterCarrier Compensation Fund (CAF ICC) program. As such, the funds from the universal communications services program contributed to defrayal of the ongoing operation and maintenance expenses of the Company. The funds from the universal communication services program are contributing to the Company's ongoing provision of high-quality basic telecommunications service to customers residing in the area the Company serves.

In December 2018, the Company received \$104,869 from the universal communications services program for the fiscal year ending June 30, 2019.

During the first six months of 2019, the Company undertook the engineering for a replacement softswitch in the Silverton exchange. The current switch will be end of life in the next few years. The funds received from the universal communications services program can be viewed as contributing to the Company's ability to perform that project, including, without limitation, the repayment of loan funds. In the second half of 2019 the Company plans to continue with the purchase and installation of the new switch.

3. WAC 480-123-130(1)(c) - Unfilled Consumer Requests for New Basic Telecommunications Service*

None

* Service requests that are ongoing but still within normal processing times are not counted as unfulfilled.

4. WAC 480-123-130(1)(e) - FCC Form 477

This form was previously filed on or about March 1, 2019 under Docket UT-190003.

5. WAC 480-123-130(1)(f) - Report on Operational Efficiencies/Business Plan Modifications

The Company continually reviews its operations to determine if efficiencies can be achieved. The Company already has a plan in place to concentrate on improving broadband service while continuing to provide high-quality basic telecommunications service to the customers that are located within the area that the Company serves. The Company continues to serve the broadband needs of its subscribers, even though doing so results in a net loss of income. The funds received from the universal communications services program can be viewed as assisting in the Company's efforts to obtain operational efficiencies.
