Re: Carbon and Electricity Markets Stakeholder Work Group, UTC Docket UE-190760

Dear Mr. Johnson:

On behalf of Avangrid Renewables I nominate Clare Breidenich to serve as a member in the Carbon and Electricity Markets Stakeholder Workgroup.

Avangrid Renewables is one of the leading developers of renewable power in the U.S. with more than 6,000 MW of owned and controlled wind and solar power plants.

Avangrid Renewables has participated for a number of years in the Western Trading Power Forum's (WPTF) Carbon and Clean Energy Committee which Clare Breidenich directs. Clare is well known as one of the leading experts in greenhouse gas regulation and policy and its interactions with the electricity markets. Clare has been actively involved in the development of the California cap and trade program from its infancy and understands the rules and impacts at a detailed level like no other. She is also very knowledgeable on other facets of the electricity markets that are impacted by greenhouse gas policy such as clean energy standards, renewable energy procurement and tracking of renewable energy credits and other environmental attributes.

I believe that Clare's expertise in these areas would make her an excellent member of the Workgroup and would ensure that the interests of non-utility electricity market participants are well represented in discussions.

Yours Sincerely,

/s/ Margaret Miller
Director of Regulatory Affairs
Avangrid Renewables
