Subject: Thank you for protecting WA's Clean Energy Future
Date: Monday, December 2, 2019 8:28:52 PM

Dear Washington UTC,

We absolutely need to make sure that we continue to have and promote more clean energy. We can no longer continue to have any type of fossil fuels. We do this for all of us now as well as future generations. There is no more time to waste on this. The alarm was sounded in the 70s about what fossil fuels are doing to our environment. This has gone on long enough. Now it is urgent that we --- YOU act immediately!

Do the right thing for all of us and our families and all of you and your families at PSE and Avista.

Because it is the right thing to do. Anything to the contrary would be damaging to PSE/Avista - and to all of us.

TIMES UP!

This is a comment for Docket # UE 190698.

As a Washington State ratepayer, I am strongly in support of effective public accountability and engagement for investor-owned utilities. I am excited for Washington's Clean Energy Transformation Act (CETA) to take effect, and appreciate your role in making sure that the implementation of this law delivers on its intended vision of a state powered by 100% clean energy.

With that in mind, I would like to make a comment on the importance of public participation in energy planning. Integrated Resource Plans have been a powerful tool for public input here in Washington State, and it has allowed customers to advocate for clean, transparent, and equitable energy decisions. These planning sessions are one of the few oversight and watchdog opportunities we get. Please keep the requirement that they happen every two years rather than every four, as proposed.

As a ratepayer and concerned resident, I thank you for representing my interests and making sure utilities are accountable to the public.

Sincerely,

Linda Massey
