Apr 15, 2024**Re: Cascade Natural Gas Corporation 2024 General Rate Case, Docket UG-240008**

Dear Director and Secretary Killip:

Commission Staff has requested Cascade Natural Gas Corporation (“Cascade”) correct and resubmit certain items in Cascade’s initial filing in the above-captioned docket. In consultation with Staff, Cascade submits replacement versions of two exhibits and provides one supplemental work paper to address Staff’s identified concerns regarding text searchability and link errors.

In general, with respect to text searchability, Cascade used Optical Character Recognition (“OCR”) technology to identify text. But in some instances, the OCR technology could not identify text due to the quality or nature of the text, as specified below.

Witness Noemi Ortiz: Exh. NO-12 has tables/figures that are not searchable	
At page 2 – “Income Tier Level”	Corrected text searchability
At page 39 – “Results of Operations Summary Sheet”	Corrected text searchability
At page 60 – “Supply Side Resources”	OCR technology unable to correct searchability for the entire map image. Note that this is part of an exhibit showing materials provided to the Equity Advisory Group. The documents in this exhibit were not created for the purpose of the GRC filing.
At page 64 – “Demand to Emissions”	Corrected text searchability
At page 67 – “Climate Commitment Act Decarbonization Plan”	Corrected text searchability
At page 75 – “Weatherization Incentive Program”	Corrected text searchability
At page 82 – “Natural Gas Utility Allowance Consignment”	Corrected text searchability

April 15, 2024
Page 2

At page 109 – “Bill Impacts”	Corrected text searchability
Witness Noemi Ortiz: Exh. NO-7 has broken link	
Page 2 contains a broken link, when clicked on it directs you to a non-working form/website	Providing a supplemental workpaper (240008-WP-NO-7 Cascade EAG Application-4-17-24) for this link, which is a link to an internal Cascade document that is no longer available as the Equity Advisory Group has been formed.
Witness Noemi Ortiz: Exh. NO-14 has broken link	
Page 4, there are broken links for “Lower Columbia Community Action Program,” and “OIC of Washington.”	Corrected links.

Sincerely,

Donna L. Barnett
