Company Response to Staff Data Request 15: Replacement Power Costs

March 17, 2016

UE-152253 / Pacific Power & Light Company
January 20, 2016
WUTC Data Request 15

WUTC Data Request 15

REQUESTED BY: Jeremy Twitchell
Subject: Bridger Selective Catalytic Reduction

Referring to lines 7-10 on page 6 of Exhibit No. ___ (RTL-1C), did the company model replacement power costs during the work of gas conversion? If so, please quantify those costs and compare them to any replacement power costs modeled during the period of SCR installation.

Response to WUTC Data Request 15

Yes, the replacement power costs are included during the work of gas conversion. The costs of the replacement power cannot be isolated as the system optimizer model (SO Model) rebalances the system when resource availability changes through dispatch and market transactions on an economic basis.
