Description

The new water rate proposal is ridiculous and should not be allowed. Seven years ago Rosario Utilities said we needed a new water plant, and the users would buy it. We were billed an additional \$22 a month for the next seven years. It's quite amusing that the month we made the final payment, Rosario sells the plant (we users paid for) and apparently pockets the money. Now the new owners want to double our rates. Why is it going to cost twice as much to operate this facility after the plant has been completely paid off? Did the new owner pay too much for this utility? If it cost so much to operate, how did Rosario Utilities manage?

Your job as the Washington Utilities and Transportation Commission and watchdog over this kind of abuse, is not to allow this to happen. Just exactly what have we paid for this last 7 years!!!

Below is the proposed rate increase as you probably know. Is this just another example of corporate greed that is taking over this country?

The proposal for retail residential customers, per ERU is as follows:

Current Rate (per gal)	Proposed Rate (per 100 gal)
% increase	
Base rate - 0 gallons	\$29.75
45%	\$43.20
1-3000 gallons	\$0.022
136%	\$0.52

3001-7500 gallons \$.0034 \$.55
 62%
 7501 or more gallons \$.0047 \$.66
 40%

Ready to Serve Customers:
 Current Rate Proposed Rate
 % increase
 No water usage \$12. \$24
 100%

Please answer the above questions for us or do not accept this proposal!
