RE: *Pacific Power & Light Company's 2016 Energy and Emissions Intensity Report,*
Docket UE-170687

TO ALL PARTIES:

On June 1, 2017, Pacific Power & Light Company (Pacific Power or Company) filed with the Washington Utilities and Transportation Commission (Commission) its annual Energy and Emissions Intensity (EEI) report for 2016 in accordance with Washington Administrative Code (WAC) 480-109-300.

On June 26, 2018, Commission staff (Staff) filed a letter stating that it had reviewed the EEI report. In its letter, Staff provided feedback regarding areas of potential improvement in future reports while acknowledging that Pacific Power has already incorporated some of that feedback into its 2017 EEI report filed on June 1, 2018, in docket UE-180502.

The Commission has reviewed the Company's EEI report, and acknowledges that the report complies with the requirements of WAC 480-109-300. The Commission encourages Pacific Power and Staff to continue working together to incrementally improve the uniformity and consistency of reporting with each reporting cycle.

MARK L. JOHNSON
Executive Director and Secretary
