TRANSPORTATION COMMISSION**

Comparison of Planning Processes

October 10, 2022

Comparison of Planning Processes

	DERP	IRP	CEAP	RFP	CEIP	BCP
	Distributed energy resource plan	Integrated resource plan	Clean energy action plan	Request for proposals	Clean Energy Implementation plan	Biennial conservation plan
Type of plan	distribution system and customer cited resources	long term resource plan	action plan	procurement process	implementation plan	implementation plan
Connection ¹	input into IRP	input into RFP informs CEIP	informs CEIP	solicits bids to fill resource need identified in IRP	shows plan for progress to meet CETA standards informed by the CEAP	section of the CEIP ²
Granularity	feeder level generic resources	generic resources	generic resources	technology specific information	specific actions	programs and measures
Commission action required	currently not presented to the Commission	cannot be litigated		approve procedures and evaluation criteria, not outcome	approve	accept
Time horizon	10 years minimum	20 years plus	10 years	variable	4 years	2 years
Statute (RCW)	19.280.100	19.280.010 to 040	19.280.030	no direct RCW	19.405	19.285
Rule (WAC)	n/a	480-100-600 to 630	480-100-620(12)	480-107	480-100-600, 605, 610, and 640 to 665	480-109

¹ Note that ultimately this process is circular and iterative

² *In the Matter of Adopting Rules Relating to Clean Energy Implementation Plans and Compliance with the Clean Energy Transformation Act*, Dockets UE-191023 & UE-190698, General Order 601, 9, ¶ 22 (December 28, 2020).
