Exhibit No.\_\_(BNW-9) Docket No. UE-100749 Witness: Bruce N. Williams

## BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION,

Complainant,

vs.

PACIFICORP dba Pacific Power

Respondent.

Docket No. UE-100749

## PACIFICORP

## **EXHIBIT OF BRUCE N. WILLIAMS**

WUTC Staff Witness K. Elgin Workpapers

November 2010

		Exhibit No(BN Page 1 of 13
1	Q.	Why did PSE temporarily maintain a higher level of short-term debt than it
2		normally would maintain during the test year?
3	А.	PSE temporarily maintain a higher level of short-term debt than it normally would
4		maintain during the test year for three reasons:
5 6 7 8		<ul> <li>PSE anticipated an equity investment from Puget Energy to pay down short-term debt to a more typical level, and this equity investment was not practicable until after the Commission issued an order in Docket No. U-072375;</li> </ul>
9 10 14		<ul> <li>PSE borrowed against its pre-Merger credit facilities to hold a higher cash position to weather the turmoil in the financial markets; and</li> </ul>
12 13		(iii) PSE planned to issue a first mortgage bond, which subsequently occurred in January 2009.
14	Q.	What would PSE consider to be a reasonable projection of short-term debt
15		for the rate year?
16	А.	PSE would consider a reasonable projection of short-term debt for the rate year to
17		be one that that is well within the size of PSE's working capital facilities. The
18		size of PSE's working capital facilities accommodates volatility in working
19	-	capital needs and provides reserves for PSE to fund capital expenditures
20		temporarily until PSE can secure long-term funding. PSE considers a reasonable
21	-	projection of short-term debt for the rate year to be in the range of \$200 million to
22		\$350 million, or in the range of approximately 3% to approximately 5% of total
23		capitalization. Therefore, PSE requests for recovery in rates a rate of return based
24		on a capital structure that includes a 3.95% short-term debt ratio, or the mid-point
