Subject: Puget Sound Energy's 2013 Integrated Resource Plan Work Plan Docket UE-120767-8

Please accept this as a comment that is wholly in support of total elimination of combusting coal for energy. I personally, as a PSE consumer, am willing to bare the increase cost to protect the air we breath and the water we so desperately need to manage better.

Please do whatever you can to discontinue sourcing my energy from coal sources such as the Colstrip Generating Facility in Eastern Montana.

Thanks for considering my comments.

Eric
