

BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

WASHINGTON UTILITIES AND
TRANSPORTATION COMMISSION,

Complainant,

vs.

RAINIER VIEW WATER COMPANY,
INC.,

Respondent.

DOCKET NO. UW-041384

JOINT MOTION TO
ACCEPT SETTLEMENT

1 Commission Staff and Rainier View Water Company, Inc., (collectively “the Parties”) jointly move the Commission to accept the Settlement Agreement filed in the above-captioned case on March 1, 2005. The Settlement Agreement allows a conservation rate of \$5.00 per 100 cubic feet used in excess of 3,000 cubic feet to go into effect each year between May 1 and September 30. The proposed conservation rate raises the charge for water usage over 3,000 cubic feet from \$0.85 per 100 cubic feet to \$5.00 per cubic feet.

2

This motion is supported by declarations from Douglas Fisher of Rainier View and Danny Kermode of Commission Staff. Both declarations are attached to this motion and support acceptance of the Settlement Agreement. The Parties have also filed a Narrative Supporting Settlement Agreement explaining the terms.

3

The Parties waive initial order and agree to present the matter directly to the Commissioners for final decision.

DATED this ___ day of March 2005.
