In regards to TR-070696 Closing of Hickox Road I am very opposed to this for several reasons. Added to traffic to other roads like Britt Slough Where two of my sons live with small children not very good for child safety. This would also affect the response time for fire and emergency vehicles to the area. I live on Dike Road with a lot of elderly neighbors and my mother who lives alone. Response time is critical many have complications that make time a factor. Please consider this in your decision hopefully not to close Hickox Road in favor of BNSF Railway.

Thank-you  
Linda Logsdon
