Thank you for the opportunity to comment on Docket UE-210183.

The UTC must revise its draft rule to eliminate the use of “retained Renewable Energy Credits (RECs)” which is a term found nowhere in the statute nor in common usage. The UTC also must eliminate all other provisions of the draft rule that would allow a utility to rely on electricity that it has sold to meet its obligation to serve customers in Washington with clean energy.

CETA means what it says: utilities must use clean energy to serve their Washington customers.

Sincerely,
Virginia Davis
