Puget Sound Energy
PSE 2021 Clean Energy Implementation Plan**

FRONT AND CENTERED AND NW ENERGY COALITION DATA REQUEST NO. 066:

DATA REQUESTS DIRECTED TO: Kara Durbin

Re: Equity Data

Of the 164 Census Tracts identified as highly impacted communities, indicate each of these Census Tracts which has also been designated:

- a. A “Qualified Census Tract” and/or a “Difficult Development Area” as defined by the U.S. Department of Housing and Urban Development for purposes of housing development subsidies.
- b. A “low-income community” for purposes of the federal New Market Tax Credit (“NMTC”) program.
- c. A R/ECAP (racially/ethnically-concentrated areas of poverty) Census Tract.
- d. As a “historically redlined community” by the FFIEC, or other financial regulator,
- e. As a “distressed or underserved” Census Tract for purposes of tracking Community Reinvestment Act obligations by the FFIEC.

Response:

Puget Sound Energy (“PSE”) objects to Front and Centered and NW Energy Coalition’s Data Request No. 066 to the extent it seeks information that is obtainable from sources that are more convenient, less burdensome, or less expensive.

It is important to note that the definition of a “highly impacted community” is determined by the Washington Department of Health, not PSE, per Revised Code of Washington 19.405.020.
