Executive Secretary
Washington Utilities and
Transportation Commission
1300 S. Evergreen Park Drive SW
Olympia, Washington 98504

Attention: Rebecca Beaton
RE: Request for Additional Numbering Resources

Dear Ms. Washburn:

Qwest respectfully requests Commission concurrence with regard to the issuance of additional numbering resources in Qwest's Tacoma Waverly rate center.

Qwest is requesting from NeuStar/NANPA, the Washington Number Pooling Administrator, one (1) block of numbers in the 253 area code, Tacoma Waverly rate center. This request is for numbers from the same NXX within the range of 7600-7999. Qwest's inventory of telephone numbers available for assignment in the Tacoma Waverly switch can not meet the special request of a customer operating in this rate center. Qwest submitted a request to NeuStar for additional numbering resources in the above referenced rate center. However, the request was denied as Qwest did not meet the months to exhaust threshold.

In its Second Report and Order on Numbering Resource Optimization, the Federal Communications Commission (FCC) allowed for a waiver of the rules when there is a demonstrated need for a large block of numbers, such as a specific customer request. *FCC Docket No. 99-200, Order No. 00-429, ¶186, released December 29, 2000.* The FCC then delegated authority to the State Commissions to grant requests for additional numbering resources in its Third Report and Order on Numbering Resource Optimization:

. . . and we delegate authority to state commissions to hear claims that a safety valve should be applied when the NANPA or Pooling Administrator denies a specific request for numbering

resources [footnote omitted]. . . . We also clarify that states may grant requests by carriers that receive a specific customer request for numbering resources that exceeds their available inventory.

We therefore clarify that states may also grant relief if a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory.

FCC Docket No. 99-200, Order No. 01-362, ¶¶61 and 64, released December 28, 2001.

The FCC further stated that companies applying for a waiver of the utilization threshold must provide the Commission with the customer request and current proof of utilization in the rate center. (Customer request and proof of utilization are attached.)

Qwest respectfully requests that the Washington Utilities and Transportation Commission direct NeuStar/NANPA to provide one (1) block of numbers to Qwest, in the 253 area code, from the 7XXX block, specifically between 7600-7999, in the Tacoma Waverly rate center.

The directive should be mailed to:

Mr. Kevin Gatchell
NeuStar, Inc.
kevin.gatchell@neustar.biz
1800 Sutter Street, Suite 780
Concord, California 94520
Telephone: (925) 363-8742

Some of the information provided is considered CONFIDENTIAL by Qwest and is marked as such in accordance with WAC 480-07-160.

Thank you for your immediate consideration in this matter. Please call me on (360) 754-3241 if you need additional information.

Sincerely,

Holly Dean

Explanation

1. A copy of this worksheet is required to be submitted to the Pooling Administrator when requesting additional numbering resources in a rate center. For auditing purposes, the applicant must retain a copy of this document.
2. Net change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #6 as the current month.
3. Forecast of TNs needed in each following month, starting with the most recent month as Month #1.
4. To be assigned an additional thousands-block (NXX-X) for growth, "Months to Exhaust" must be less than or equal to 6 months. (FCC 00-104, § 52.15 (g)(3)(iii)).
5. Newly acquired numbers may be excluded from the Utilization calculation (FCC 00104, section 52.15 (g)(3)(ii))
