Canceling Twenty-Sixth Revision  
of Sheet No. 7

WN U-60

**PUGET SOUND ENERGY**  
**Electric Tariff G**

**SCHEDULE 7**  
**RESIDENTIAL SERVICE**

(Single phase or three phase where available)

**AVAILABILITY:**

1. This schedule is limited to residential service, which means service that is delivered through one meter to a single-family unit and is used principally for domestic purposes, even though such service may incidentally be used for nondomestic purposes. Electric service for nondomestic use may be separately metered and served under the provisions of the applicable general service schedule, provided that such service does not include single-family units.
2. If this schedule is applied to transient occupancy in separately metered living units, billing shall be in the name of the owner on a continuous basis.
3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
4. Space conditioning and water heating capacities shall be energized in increments of 6 KW or less by a thermostat, low voltage relay, or suitable time delay equipment.
5. Customers requiring three-phase service under this schedule will be required to contribute the incremental cost of three-phase facilities to provide such service.

**MONTHLY RATE:**

Basic Charge: \$6.75 single phase or \$15.20 three phase (l)(l)

**Energy Charge:**

7.6891¢ per kWh for the first 600 kWh (l)  
9.5301¢ per kWh for all over 600 kWh (l)

**Electric Tariff G**

**SCHEDULE 7A**  
**MASTER METERED RESIDENTIAL SERVICE**  
**(Secondary Voltage or at available Primary distribution Voltage)**  
 (Single phase or three phase where available)

AVAILABILITY:

1. This schedule is limited to master metered residential service, which is service delivered through one meter to multiple single-family units located in a structure of four (4) or more stories that are above ground level. Electric Service must be used principally for domestic purposes, but may incorporate incidental non-domestic use. Electric service for non-domestic use may be separately metered and served under the provisions of the applicable general service schedule, provided that such service does not include single-family units.
2. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
3. Space conditioning and water heating capacities shall be energized in increments of 6 kW or less by a thermostat, low voltage relay, or suitable time delay equipment.
4. Customers requiring three-phase service under this schedule are responsible for the incremental costs of three-phase facilities to provide such service.

MONTHLY RATE – SECONDARY VOLTAGE:

Basic Charge: \$46.00 (I)

**SCHEDULE 24**  
**GENERAL SERVICE**  
(Secondary Voltage)  
(Single phase or three phase where available)  
(Demand of 50 kW or less)

**AVAILABILITY:**

1. This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is 50 kW or less.
2. Customers whose metered Demand exceeds 50 kW twice during the most recent 12 consecutive months are not eligible for service under this schedule.
3. Customers with less than 12 months billing history and Billing Demand over 50 kW twice are not eligible for service under this schedule.
4. The Company shall not cause customers who are principally residential and were taking service under this schedule on or before September 17, 1983, to take service under Schedule 7 of this tariff.
5. Deliveries at more than one point will be separately metered and billed.
6. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
7. Highly intermittent loads such as welders, X-ray machines, elevators, and similar loads which may cause undue lighting fluctuation shall not be served under this schedule unless approved by the Company.

**MONTHLY RATES:**

Basic Charge: \$7.50 single phase or \$17.05 three phase

Second Revision of Sheet No. 40  
 Canceling First Revision  
 of Sheet No. 40

WN U-60

**PUGET SOUND ENERGY**  
**Electric Tariff G**

**SCHEDULE 40**  
**LARGE DEMAND GENERAL SERVICE GREATER THAN 3 aMW**  
 (Single phase or three phase at the available Primary or Secondary distribution voltages)

**AVAILABILITY:**

This schedule applies to Customers with over 3 average MW of load on a distribution feeder (or substation when, but for the feeder configuration, the customer would have 3 aMW of load on a distribution feeder) where:

1. The sum of the Customer's coincident peak Demand for all of the Customer's non-residential meters on a non-dedicated distribution feeder is 3 MW of Coincident Demand or larger; and
2. Is subject to completion of a cost study by the Company to establish the Customer-specific distribution charge. Customers shall notify the Company if they wish to elect service under this schedule in conjunction with the next general rate case subject to the results of the cost study.
3. Service under this schedule is voluntary for three years after the date of approval of the original version of this schedule. This rate will be mandatory for all eligible Customers commencing with the first general rate case completed after the end of the three-year voluntary period.
4. For Primary Service all necessary wiring, transformers, switches, cut-outs and protection equipment beyond the Point of Delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers prior to availability of service under this schedule.

**MONTHLY RATES:**

This tariff is for bundled retail service only and the Customer will be billed for the Basic Charge, Production and Transmission Charges, and Distribution Charges.

1. Basic Charge(s): applies to each metering point
  - Primary Voltage Metering Points: \$295.00
  - Secondary Voltage Metering Points with annual peak Demand <= 350 kW: \$25.00 (l)
  - Secondary Voltage Metering Points with annual peak Demand > 350 kW: \$55.00 (l)
2. Production and Transmission Charges:
  - a) Demand Charge: JAN-DEC
    - High Voltage Metering Point \$3.28 per kW of Coincident Billing Demand (l)
    - Primary Voltage Metering Point \$3.34 per kW of Coincident Billing Demand (l)
    - Secondary Voltage Metering Point \$3.45 per kW of Coincident Billing Demand (l)
  - b) Energy Charge:
    - High Voltage Metering Point 5.1397¢ per kWh (l)
    - Primary Voltage Metering Point 5.2329¢ per kWh (l)
    - Secondary Voltage Metering Point 5.3934¢ per kWh (l)

- c) Reactive Power Charge:
- |                                  |  |     |
|----------------------------------|--|-----|
| Primary Voltage Metering Point   | 0.119¢ per reactive kilovolt ampere-hour (kvarh) | (I) |
| Secondary Voltage Metering Point | 0.098¢ per reactive kilovolt ampere-hour (kvarh) | (I) |
3. Distribution Charges Applicable to Customers on Schedule 40 at the time the Commission approves the Distribution Charges in this Section 3 in a general rate case and to incremental new load on an existing feeder of a Customer currently receiving service under Schedule 40. (N)  
(N)
- Demand Charge: Customer specific charge calculated by dividing the distribution costs (calculated according to the following procedures) by the estimated annual peak Coincident Billing Demand. The Demand charge will not be recalculated between rate cases for new load on existing feeders of Customers already on this schedule. (N)  
(N)
- a) Customers share of substation costs calculated as:
- i. The Customer's Demand on the substation divided by the total Demand on the substation multiplied by:
  - ii. Substation Base Costs calculated using net book value at the time the Customer goes on to Schedule 40 multiplied by:
  - iii. The sum of the Substation Fixed Charge Rate, the Substation O&M Charge Rate and the A&G Charge Rate as shown in A., B., and C. below.
    - A. Substation Fixed Charge Rate, as derived from the Fixed Charge Rate Model, based upon the dollar-weighted average remaining life of the substation equipment and 13.2500% for land, (I)
    - B. Substation O&M Charge Rate of: 4.1375%, |
    - C. A&G Charge Rate of 35% of the O&M rate, which is 1.4481% for substation costs. (I)(I)
  - iv. The Substation Base Cost, the Substation Fixed Charge Rate, the Substation O&M Charge Rate and the A&G Charge Rate in general rate cases following a Customer first going on Schedule 40, will be adjusted as follows:
    - A. Substation Base Costs will be adjusted for substation equipment retired, and
    - B. the cost for new equipment will be added. The formula described in section 3.a)i. will then be applied to the updated Substation Base Costs
    - C. The Substation Fixed Charge Rate will be adjusted for changes in the cost of capital and capital structure, taxes and insurance.
    - D. The Substation O&M Charge Rate will be adjusted based on the ratio of substation O&M to substation plant.
    - E. The A&G Charge Rate will be a function of the ratio of the distribution A&G to distribution O&M.

4. Distribution Charges Applicable to Customers electing to commence service under Schedule 40 between general rate cases. Except for incremental new load on an existing feeder of a Customer currently receiving service under Schedule 40 the following applies: (N)  
(N)

Demand Charge: Customer specific charge calculated by dividing the Distribution Cost (calculated according to the following procedures) by the estimated Coincident Billing Demand. Such estimated Coincident Billing Demand is based on the Customer specific Coincident Demand established for the corresponding Month during the test year used in the most recently completed general rate case.

- a) Distribution Cost calculated based upon the Customer specific historical consumption during the test year used in the most recently completed general rate case (I)  
i. Primary Voltage consumption: \$0.012542 / kWh (R)  
ii. Secondary Voltage consumption (> 350 kW peak Demand): \$0.011042 / kWh (I)  
iii. Secondary Voltage consumption (<= 350 kW peak Demand): \$0.014850 / kWh (I)

**ADJUSTMENTS:**

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

**COINCIDENT BILLING DEMAND:**

Coincident Demand and Coincident Billing Demand refers to the coincident monthly 15 minute peak Demand of the Customer's meters for all accounts that qualify for Schedule 40 on the distribution feeder(s).

Billing Months of December through March: the highest Coincident Demand established during the Month. Billing Months of April through November: the highest Coincident Demand established during the Month, but not less than 60 per cent of the highest Coincident Demand established during the previous peak winter season (billing Months of December through March).

Coincident Billing Demand will be calculated from interval metering where the Company determines that this would be cost effective; otherwise it will be the billed Demand adjusted for a coincidence factor established from a Customer study performed by the Company.

**REACTIVE POWER CHARGE:**

The reactive power charge shall apply only to those meters where the annual peak load is over 50 kW.

**SCHEDULE 43**  
**INTERRUPTIBLE PRIMARY SERVICE FOR TOTAL-ELECTRIC SCHOOLS**  
(Single phase or three phase at the available Primary distribution voltage)  
(Continued)

<b>MONTHLY RATE:</b>		
Basic Charge:	\$295.00	(l)
Demand Charge:		
	\$4.26 per kW of Billing Demand	(l)
Plus	\$3.49 per kW of Critical Demand established in the preceding 11 months	(l)
Energy Charge:	5.1257¢ per kWh	(l)
Reactive Power Charge:	0.283¢ per reactive kilovolt ampere-hour (kvarh)	(l)

**ADJUSTMENTS:**

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

**BILLING DEMAND:**

The highest Demand established during the month.

**CRITICAL DEMAND:**

The highest average 15-minute demand recorded between 5:00 p.m. and 8:00 p.m. on any day the customer has been notified by the Company that power interruption is required, less a demand credit allowed at the rate of .6 watts per square foot of structure.

**REACTIVE POWER CHARGE:**

The reactive power charge shall apply to only those electric loads with a maximum monthly Demand of 100 kW or higher. The meter used for the measurement of kvarh shall be ratcheted to prevent reverse registration.

**GENERAL RULES AND PROVISIONS:**

Service under this schedule is subject to the General Rules and Provisions contained in this tariff.

**SCHEDULE 46  
HIGH VOLTAGE INTERRUPTIBLE SERVICE**  
(Three phase, delivery voltage of 50,000 volts or higher)

**AVAILABILITY:**

1. This schedule applies to service that may be interrupted at the request of the Company to maintain or manage the integrity of its electrical system or to assist the Company in the management of energy supplies and resources for economic or other purposes subject to the terms and conditions described below.
2. Customer taking service under this Schedule must anticipate 210 hours of service interruption annually, as described in subsequent sections of this schedule.
3. Separate voltage arrangements with individual customers may be required in instances where available high voltage delivery voltages are subject to change in accordance with the Company's programs for system improvements.
4. All necessary wiring, transformers, switches, cut-outs, and protection equipment beyond the Point of Delivery shall be provided, installed, and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.

**MONTHLY RATE:**

Demand Charge	\$1.87 per kVa of Billing Demand	(I)
Energy Charge:	4.8738¢ per kWh	(I)

**ADJUSTMENT:**

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

**BILLING DEMAND:**

The highest average thirty-minute Demand recorded during the month (but not less than 4,400 kVa), exclusive of Demand occurring on Sundays or between 12:00 midnight and 5:00 a.m.

(Three phase, delivery voltage of 50,000 volts or higher)  
(Continued)

**ANNUAL MINIMUM CHARGE:**

The sum of the monthly bills in any period of twelve (12) consecutive months shall not be less than \$22.44 per kVa of the maximum Billing Demand established plus 4.3864¢ per kWh consumed during the period.

(l)(l)

**INTERRUPTION OF SERVICE:**

1. Times and Durations of Interruptions: Electric Service shall be interrupted and suspended by Customer, as directed by the Company, between the hours of 8:00 a.m. and 12:00 noon and between 5:00 p.m. and 8:00 p.m. Monday through Saturday. Subject to paragraph 3 below, the duration of such interruption and suspension ("Suspension Period") shall be specified in the Company's notice to the Customer to initiate and maintain such interruption and suspension.
2. Notice Prior to Suspension Period: The Company shall provide the Customer reasonable advance notice of a Suspension Period; provided, however Company will provide Customer at least 14 hours advanced notice of a Suspension Period when such service interruption is for the Company to economically manage its energy supplies and resources. When Company notifies Customer of a service interruption for the Company to economically manage its energy supplies and resources, Company will provide customer with a non-binding estimate of the penalty per kWh to be assessed if Customer fails to interrupt and suspend service..
3. Limitations on Service Interruptions: Customer will not be required to interrupt and suspend Electric Service under this Schedule for more than 210 hours during any twelve-month period commencing on October 1 of each year; provided, however, no Customer will be required to interrupt and suspend Electric Service pursuant to this Schedule for more than 182 hours during any such twelve-month period for the sole purpose of Company management of energy supplies and resources for economic purposes. This maximum of 182 hours of interruption for Company management of energy supplies and resources for economic purposes shall also include hours used to test Customer's preparedness to interrupt and suspend service; provided, however, the Company will not institute any more than two such tests during the twelve month period.

**Option B:**

0.26% times the Estimated System Cost per month.

(I)

Under Option B the Customer pays the Estimated Installed Cost up-front. The monthly facilities charge covers routine maintenance.

**Availability Of Option A Facilities Charge:**

Option A is available to all Customers except, Option A is not available to homeowner or condo associations or similar organizations until the homes or condos have been fully built-out and occupied. At any time the Company may require that the Customer provide sufficient security up to the amount of the Estimated Installed Cost in a form and for a term acceptable to the Company. Any Customer wishing to discontinue service (including changing of account responsibility) must pay the unamortized balance of the Estimated Installed Cost at the time service is discontinued.

**SPECIAL TERMS AND CONDITIONS:**

1. **Notification of Inoperable Lights:** For lights where the Company provides routine maintenance, it shall be the responsibility of the Customer to notify the Company of Custom lights that are not working. Upon notification, within seventy-two (72) hours, excluding Saturdays, Sundays and holidays, the Company will investigate and take corrective action if such action is the responsibility of the Company. If such Company investigation/corrective action is not taken within seventy-two (72) hours for each such light, the Customer's billing shall be credited an amount equal to the monthly Lamp Charges normally billed for that light. This seventy-two (72) hour guarantee of service is in lieu of the provisions of Schedule 130 which are not available under this schedule. The Company will be excused from providing maintenance service within seventy-two (72) hours in the event of significant adverse events, such as storms, earthquakes, or other events beyond the Company's control including those enumerated in Schedule 80, paragraph 12.a. of this tariff.
2. **Hours of service:** Service under this schedule is for dusk-to-dawn lighting, or lighting service for the average number of hours of darkness per month (approximately 4,200 hours per year).

**STREET LIGHTING SERVICE - SODIUM VAPOR (Continued)**

4. Removal, Relocation or Modification of Lighting Facilities: Lighting facilities will be removed, turned off, relocated or modified only after receipt of a letter signed by the Customer or its assignee who is in authority to order such action. Only the Company may remove, relocate or modify Company-owned lighting facilities. Modification includes changes in type of lighting fixture or changes in bracket length or mounting height due to Customer, city, county or state requests or requirements. Requests for removal and subsequent re-installation of a lighting fixture in order to meet applicable ordinances or law pertaining to the type of lighting facilities or requirements for bracket length or mounting height will be considered a modification for the purposes of charges herein. Relocation includes relocation of supporting poles and conversion of the serving distribution facilities to underground due to Customer, city, county or state request or requirement. In advance of any removal, relocation or modification, the Customer shall pay an amount equal to the estimated cost of such removal, relocation or modification. This estimated charge shall include the cost of removal of facilities that now serve lighting load only. All facilities installed or removed remain the sole property of the Company. The cost of removal, relocation or modification also includes any costs of traffic control or other associated costs. Charges for relocation or modification apply to all lights of any age. Charges for removal apply to lights that are (a) installed after June 1, 1998, and (b) have been in service for less than 25 years and (c) are removed (i) due to Customer request or (ii) because there is no longer a Customer to accept service. Where there is no longer a Customer to accept service, the removal will be considered a removal requested by the last Customer of record for the purposes of assessing the charges contained in this schedule.
5. Installation Costs - Charge Upon Removal: In addition to the charge for the cost of the removal, the following charges apply:
- a. If a light installed after June 1, 1998, is to be removed and has been installed for less than ten (10) years, a charge equal to the total original estimated installed cost less (i) any up-front customer contribution toward the cost of salvageable items and (ii) estimated salvage value of the facilities removed.
  - b. Transfer to Company: If lights are transferred to Company ownership for nominal compensation, the charges in a. above will not apply.

1. This schedule applies to dusk-to-dawn flood lighting of private property where 120 volt service is existing on the pole upon which the fixture is to be installed. Where such secondary voltage service or pole is not available, service under this schedule will be available upon payment of the costs to provide such secondary voltage service or pole and service as provided herein.
2. For lights installed prior to Nov. 1, 1999, service is for a term of twelve (12) months and removal charges do not apply. For lights and/or poles installed after Nov. 1, 1999, service under this schedule is effective for a period of eight (8) years after installation of Company-owned facilities, unless (a) a subsequent customer requests service or (b) the facilities are removed, whereupon appropriate removal charges shall be paid.
3. Service under this schedule will be discontinued if the distribution facilities being utilized to serve are removed due to a conversion of such facilities to an underground system.
4. For lighting facilities installed after Nov. 1, 1999, where necessary, the Customer shall obtain for, or grant to, the Company necessary permits or operating rights to place lighting facilities without expense to the Company. In conditions where it is necessary to place any lighting facilities on private property, the customer shall obtain and furnish suitable easements without expense to the Company.

**FACILITIES CHARGE:**

The Company's facilities will be extended to provide secondary voltage service to an existing pole or to a thirty foot wood pole (installed for the purpose of area lighting) at locations where such pole and/or service is not available under the following terms:

Facilities installed after November 1, 1999: Customers served by a 30 foot wood pole installed after this date shall have the option of paying the full cost of the extension and pole up-front or shall be subject to a charge of \$8.14 per month for each pole required for such extension. The cost of all other extensions of facilities to provide secondary voltage service shall be paid in advance of service. (l)

**SPECIAL TERMS AND CONDITIONS:**

- Ownership & Operations: The Company will own, operate, and maintain the facilities for supplying flood lighting service utilizing its overhead circuits in accordance with the Company's standards. The Company will furnish the necessary energy, repairs, and maintenance. Repairs and maintenance work will be performed by the Company as required during regularly scheduled working hours of the Company.

of Sheet No. 93

WN U-60

**PUGET SOUND ENERGY  
Electric Tariff G**

**SCHEDULE 93  
VOLUNTARY LOAD CURTAILMENT RIDER**

**1. AVAILABILITY:**

The credit determined by this schedule is available to Customers taking service under schedules 49, 31, 26, 10, or 12, or any special contract if such contract specifically states Customer's eligibility to take service under this schedule; provided, however, as to any such Customer:

- a. the Customer is able to curtail at least 350 kW of load over a minimum of a one (1) hour time period; (C)
- b. the Company determines, to its satisfaction, that metering equipment adequate to implement this schedule is available for the Customer;
- c. the Company determines, to its satisfaction, that adequate information system capacity is available to implement this schedule for the Customer; and
- d. the Company and such Customer have entered into a Voluntary Interruption Agreement, in a form satisfactory to the Company.

**2. DEFINITIONS:**

- a. Actual Hourly Consumption – the Customer's actual, hourly metered consumption of energy during a Curtailment Period.
- b. Base Schedule Energy Charge – the sum of charges made on an energy basis determined by the rate schedule or special contract pursuant to which the Customer takes Electric Service (e.g., the Base Schedule Energy Charge for schedule 49 Customers during October 2002 is \$0.037259 per kWh).
- c. Baseline Hourly Consumption – for any hour of any week, the Baseline Hourly Consumption shall be the average consumption during the corresponding hour of the preceding two weeks, exclusive of preceding weeks where such corresponding hour occurred during: (i) a holiday, or (ii) a Curtailment Period (i.e., if any such corresponding hour shall occur during a holiday or a Curtailment Period, then the Baseline Hourly Consumption for such hour shall be determined by reference to the next preceding week).

**PUGET SOUND ENERGY**  
**Electric Tariff G**

**SCHEDULE 93**  
**VOLUNTARY LOAD CURTAILMENT RIDER**  
(Continued)

- d. Curtailment Period – a period of time established by the Company during which a Customer may, in accordance with this schedule, earn a credit for curtailment of energy consumption, if and to the extent such Customer actually curtails energy consumption during such period of time. The Company may elect, in its discretion, to establish one or more Curtailment Periods; provided, however, the Company shall have no obligation to establish any one or more Curtailment Periods, and the frequency and duration of Curtailment Periods (if any) established by the Company are also matters within the Company's sole discretion.
- e. Curtailed Energy – as to any Customer that, in accordance with this schedule, nominated an amount of energy for curtailment during a Curtailment Period and curtailed such amount of energy during such Curtailment Period, the Curtailed Energy by such Customer during such Curtailment Period shall be determined by subtracting such Customer's Actual Hourly Consumption (for the relevant Curtailment Period) from such Customer's Baseline Hourly Consumption (for the relevant Curtailment Period)(i.e., Curtailed Energy = Baseline Hourly Consumption – Actual Hourly Consumption). Curtailed energy will not include metered energy from non-Company owned generation operated at Customer's premises that is subject to credit provisions under other rate schedules or special contracts.
- f. Loss Factor – for Customers taking high voltage Electric Service (e.g., schedule 49 Customers): 1 + 2.16%. For Customers taking primary voltage Electric Service (i.e., schedule 31 Customers): 1 + 4.12%. For customers taking secondary voltage service (i.e., schedule 26 Customers): 1 + 7.37%. (C)  
|  
(C)
- g. Offer Price – the price for Curtailed Energy offered by the Company.
3. CREDIT FOR CURTAILED ENERGY:  
For each kWh of Curtailed Energy, the Company will credit the Customer's account by the following amount:
- 0.7 x ((Offer Price x Loss Factor) - Base Schedule Energy Charge) x Curtailed Energy (C)

WN U-60

**PUGET SOUND ENERGY**  
**Electric Tariff G**

**SCHEDULE 93**  
**VOLUNTARY LOAD CURTAILMENT RIDER**  
(Continued)

Customer will not be entitled to a credit under this schedule for any reductions of consumption for which such Customer has otherwise been compensated by the Company.

4. VOLUNTARY CUSTOMER CURTAILMENT REQUESTS AND NOMINATIONS:
- a. The Company may establish a Curtailment Period for a Customer taking service under this schedule by notifying Customer of the opportunity to earn a credit for Curtailed Energy. Such notice shall specify the Curtailment Period, the Offer Price, the total amount of energy eligible for Curtailed Energy credits for such Curtailment Period, and such other information as the Company may determine to be appropriate under the circumstances. The Company may provide such notice to such Customer on or before 9:00 a.m. of the day, two days preceding the day of the Curtailment Period. (C)
  - b. A Customer in receipt of such notice from the Company may, in response thereto, notify the Company of its desire to earn a credit for Curtailed Energy by nominating an amount of energy to be curtailed by such Customer during such Curtailment Period. Such notice from the Customer to the Company shall specify (on a form provided by the Company) the amount of energy to be curtailed by the Customer, by hour, during the Curtailment Period. To be eligible for a credit for Curtailed Energy, Customer's notice to the Company must be received by the Company on or before 12:00 noon of the day, two days preceding the day of the Curtailment Period. (C)
  - c. A Customer providing the Company notice of its desire to earn a credit for Curtailed Energy shall be eligible to earn such a credit if and only if such Customer shall have received, on or before 2:00 p.m. of the day, two days preceding the Curtailment Period, confirmation from the Company that Customer's nomination has been accepted. The Company may, in its sole discretion, accept or reject any or all Customer nominations. (C)
  - d. The Company reserves the right to waive any one or more irregularities: (i) in a Customer's nomination of an amount of energy to be curtailed by such Customer during a Curtailment Period; and (ii) in the deadlines set forth above for the Customer's nomination, or the Company's confirmation, of an amount of energy to be curtailed by such Customer during a Curtailment Period.

**PUGET SOUND ENERGY**  
**Electric Tariff G**

**SCHEDULE 102**  
**CRITICAL PEAK PRICING PILOT**  
**RESIDENTIAL SERVICE**  
(Single phase or three phase where available)

(N)

**AVAILABILITY:**

1. This schedule is available to Customers eligible to receive Electric Service under Schedule No. 7, provided that the Company determines, to its satisfaction, that adequate metering equipment is available for the Customer.
2. The Company in its sole discretion will decide the size of this pilot and may restrict its availability to 1,000 Customers. The Company in its sole discretion, may move any Customer back to Schedule No. 7 as the testing and evaluation of this pilot progresses.
3. A Customer electing to take service under this schedule shall remain on it for the duration of the pilot. Customers on Schedule No. 102 shall automatically revert to Schedule No. 7, effective on the Customer's designated meter read date just prior to the end of the term of this pilot.

**APPLICABILITY:**

Except as otherwise provided by this schedule, Electric Service under the schedule shall be available on the terms and conditions set forth in Schedule No. 7.

**TERM:**

This schedule shall terminate upon the earlier of: (i) March 31, 2008; or (ii) an earlier date if approved and ordered by the Washington Utilities and Transportation Commission.

**MONTHLY RATE:**

Basic Charge: \$6.75 single phase or \$15.20 three phase  
Low Consumption Credit: 1.8400 ¢ credit per kWh for the first 600 kWh  
(regardless of the time of day used)

**DAILY TIME OF DAY RATE:**

Super Peak Energy Charge: 40.0000 ¢ per kWh  
Morning Peak Energy Charge: 9.3628 ¢ per kWh  
Mid-Day Energy Charge: 8.5116 ¢ per kWh  
Evening Peak Energy Charge: 9.3628 ¢ per kWh  
Economy Energy Charge: 7.8307 ¢ per kWh

The daily time of day charge shall be calculated per Customer on a daily basis as an amount equal to the sum of the Super Peak Energy Charge, the Morning Peak Energy Charge, the Mid-Day Energy Charge, the Evening Peak Energy Charge and the Economy Energy Charge. The monthly charge is the sum of the Daily Time of Day Rate and the Monthly Rate.

**DEFINITIONS:**

1. Event Day(s) – The Company shall unilaterally declare a day as an Event Day. Consecutive days may be declared as Event Days. The Company shall declare no more than 10 Event Days seasonally during the months of November through March. The Company will individually notify Customers prior to Event Days. The Company will use various communication methods, which may include mass-market notification .
2. Super Peak Energy Charge – this charge only applies on Event Days and is a daily time of day rate applied to energy consumed by the Customer between 6 a.m. and 10 a.m., Pacific Prevailing Time, and between 5 p.m. and 9 p.m., Pacific Prevailing Time, on all Event Days.
3. Morning Peak Energy Charge – a daily time of day rate applied to energy consumed by the Customer between 6 a.m. and 10 a.m., Pacific Prevailing Time, Monday through Saturday. There is no Morning Peak Energy Charge on Event Days.
4. Mid-Day Energy Charge – a daily time of day rate applied to energy consumed by the Customer between 10 a.m. and 5 p.m., Pacific Prevailing Time, Monday through Saturday.
5. Evening Peak Energy Charge – a daily time of day rate applied to energy consumed by the Customer between 5 p.m. and 9 p.m., Pacific Prevailing Time, Monday through Saturday. There is no Evening Peak Energy Charge on Event Days.
6. Economy Energy Charge – a daily time of day rate applied to energy consumed by the Customer between 9 p.m. and 6 a.m., Pacific Prevailing Time, Monday through Saturday. Economy Energy Charges also apply to all hours on Sundays and NERC Holidays. There is no Economy Energy Charge, between 6 a.m. and 10 a.m., Pacific Prevailing Time, and between 5 p.m. and 9 p.m., Pacific Prevailing Time, on Event Days that fall on a Sunday or a NERC Holiday.
7. NERC Holidays - The following days shall be considered NERC Holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. Should any of these holidays fall on Sunday, the following Monday is considered the holiday. Should any of these days fall on Saturday, the Saturday is considered the holiday.

**Title:** Director, Rates & Regulatory Affairs

WN U-60

Original Sheet No. 121

**PUGET SOUND ENERGY  
Electric Tariff G**

**SCHEDULE 121  
ELECTRICITY CONSERVATION INCENTIVE MECHANISM**

(N)

**APPLICABILITY:**

To all bills for Electric Service calculated under all schedules contained in this tariff and all retail contracts for Electric Service except where explicitly exempted.

**PURPOSE:**

This schedule implements surcharges or refunds based on the amount of energy savings achieved through the services and programs offered under Schedule 83 and schedules numbered between 200 and 299.

**CALCULATION:**

The first annual calculation will be a projection of the incentive amount based on a projection of the amount of conservation the Company expects to achieve in excess of the annual Baseline Target set by the Company in a manner approved by the Commission. For 2007, the Baseline Target is 16.5 average megawatts of electricity savings from energy efficiency programs.

All subsequent annual calculations will include a similar projection and a true-up to actual of the past year's projected incentive or penalty. The resulting differences are grossed up for federal taxes and for revenue sensitive items and then multiplied by the incentive and penalty bands and factors below to determine the dollar amount of incentive or penalty for the year.

**INCENTIVE/PENALTY BANDS:**

**Incentive Band Ranges**

- Band A – More than 125% of Baseline Target
- Band B – More than 110% through 125% of Baseline Target
- Band C – More than 95% through 110% of Baseline Target

**Dead Band Range**

- Band D – More than 80% through 95% of Baseline Target

**Penalty Band Ranges**

- Band E – More than 65% through 80% of Baseline Target
- Band F – More than 50% through 65% of Baseline Target
- Band G – 50% or less of Baseline Target

**INCENTIVE/PENALTY FACTORS:**

- Band A – 20% of the total eligible program costs of conservation included in tariff rider
- Band B – 15% of the total eligible program costs of conservation included in tariff rider
- Band C – 10% of the total eligible program costs of conservation included in tariff rider
- Band D – None
- Band E - \$0.04 per kWh deficit from the Baseline Target
- Band F - \$0.05 per kWh deficit from the Baseline Target
- Band G - \$0.06 per kWh deficit from the Baseline Target

SCHEDULE 58 - Horizontal Metal Halide Lighting Service\*

Lamp Wattage

175 Watt	\$0.11 per lamp
250 Watt	\$0.15 per lamp
400 Watt	\$0.24 per lamp

\*Rate applies to the schedule(s) as well as equivalent schedules such as Residential and Farm schedules.

**ADJUSTMENTS:**

Rates in this schedule and those rates reflected in the schedules for electric service to which this Depreciation Tracker applies, are subject to adjustment by such other schedules in this tariff as may apply.

**GENERAL RULES AND PROVISIONS:**

Service under this schedule is subject to the General Rules and Provisions in this tariff (Schedule 80) as they may be modified from time to time and other schedules of such tariff that may from time to time apply as they may be modified from time to time.

**SCHEDULE 129  
LOW INCOME PROGRAM**

**AVAILABILITY/APPLICABILITY:**

The benefits available under this Low Income Program ("Program") (as approved in Docket Nos. UE-011570 and UG-011571) are available to Customers of the Company meeting the criteria described herein. The charges under this schedule apply to all Customers of the Company.

**BENEFITS:**

1. Benefits under this Program are available through designated agencies (herein "Agencies") that:
  - a) meet the criteria for a "Qualifying Organization" as defined in RCW 82.16.0497, b) the Company accepts as capable of performing necessary obligations under this Program, and c) executes a contract with the Company that is: i) consistent with this schedule, ii) provides for periodic auditing, and iii) provides for an annual administration evaluation. The Agencies will ascertain whether specific Customer households seeking assistance with their electric bills are eligible for assistance under the Program.
  - a. The Agencies will determine whether a Customer meets the federal definition for Low Income Home Energy Assistance Program ("LIHEAP") qualification.
    - i) If the Customer is eligible, it will receive LIHEAP funds in lieu of funds under this Program unless or until LIHEAP funds are exhausted. Thereafter, the Customer will be considered for this Program.
    - ii) If the Customer is not eligible to receive LIHEAP funds, but meets the Company criteria, the Customer will be considered for this Program.
    - iii) If the Customer meets all applicable criteria, the Customer will be eligible to receive assistance under the Company's Program or Customers may voluntarily choose to participate in a Time of Day Discount assistance program (Schedules 308 and 309).
  - b. Total benefits under this Program plus administrative fees and program costs are subject to an annual cap of \$6.1 million for just the electric Program and \$9.5 million for both this electric Program and the low income program under the Company's gas tariff. The annual caps for electric and gas are annually re-established by the Company using the Four-Factor Allocator as provided in the Company's annual Commission Basis Report, subject to an annual true-up.
  - c. A qualifying Customer may receive assistance through this Program once during a program year. Customers shall be requalified annually by one of the Agencies. Total benefits to an individual eligible Customer under this program are subject to an annual cap equal to the LIHEAP cap (currently \$750.00).

**PUGET SOUND ENERGY**  
**Electric Tariff G**

**SCHEDULE 129**  
**LOW INCOME PROGRAM**  
(Continued)

**INCOME ELIGIBILITY CRITERIA:**

With exceptions as noted, eligibility will be restricted to "very low-income households", as defined by the Washington Department of Community, Trade and Economic Development for purposes of affordable housing in RCW 43.63A.510. Currently that definition identifies households with an income not to exceed 50% of area median income. For purposes of this Program, in areas where 50% of median income exceeds 150% of federal poverty guidelines, eligibility will be capped at 150% of federal poverty guidelines; and in areas where 50% of median income falls below 125% of federal poverty guidelines, eligibility will be capped at 125% of federal poverty guidelines. To summarize, the income-eligibility ceiling for the Program fluctuates in a range between 125% and 150% of federal poverty guidelines; within the range, the precise figure equals 50% of the median income of an area.

(M)  
-----  
(M)

**INFORMATION SERVICES:**

1. Agencies will provide qualifying Customers with the following education and information.
  - a. Low-income weatherization program information.
  - b. Personal Energy Management (PEM) / Time of Day rate education.
  - c. Information on deferred payment arrangements and budget billing.
  - d. Conservation education and information.
2. The Company will provide qualifying Customers with the following information.
  - a. Information to Customers dealing with delinquent utility bills on how to access low-income assistance.

**FUNDING:**

1. There will be a prescribed agency administrative fee structure based on actual costs to local contractors to operate the LIHEAP program in Washington State. The administrative fees paid to Agencies will be considered part of the benefits paid under this Program. Funding of benefits under this Program will be allocated in the Company's service area proportionate to LIHEAP payments to PSE for electricity in the most recent LIHEAP fiscal year.
2. There will be a surcharge on all electric Energy (kWh) to all customer classes that will be subject to an annual true-up so that the benefits under this Program are equal to the Funding amounts collected by the surcharge minus the effect of taxes.
