First Revision of Sheet No. 40-A

PUGET SOUND ENERGY
NATURAL GAS RULES AND REGULATIONS (T)
RULE NO. 26: Purchased Gas Adjustment Mechanism (Continued)

2. Adjustments under this rule may include:
 - a. Commodity costs associated with the Company's
 - (1) acquisition of natural gas commodities from producers or marketers;
 - (2) withdrawal of natural gas from storage sources and;
 - (3) off-system sales, capacity releases and exchanges and; (C)
 - (4) wholesale market hedge program credit facility costs. (N)
 - b. Demand costs associated with
 - (1) demand charges for long-term and seasonal gas supplies and;
 - (2) pipeline transportation reservation charges, including, but not necessarily limited to United States or Canadian demand charges for transportation service, whether paid directly to a pipeline or incorporated as a component of charges paid to a producer or marketer;
 - (3) storage and LNG delivery and capacity demand charges;
 - (4) demand charges involving off-system sales and capacity releases.
3. The demand and commodity costs included in the gas cost rate will be determined on the basis of the Company's projected volumetric commodity purchase requirements for a twelve-month period. These projected costs will be based on reasonable and consistent methods of forward price forecasting and reflect anticipated material contract changes.
4. The PGA commodity cost will be calculated by dividing the projected total commodity costs by the projected total commodity sales volumes for the applicable forecast period. The result is then multiplied by the revenue adjustment factor. The PGA commodity charge change is derived by subtracting the new PGA commodity charge (prior to the revenue adjustment factor) from the existing PGA commodity charge (prior to the revenue adjustment factor).
5. The PGA demand cost will be calculated by dividing the projected total demand costs, as allocated to each rate schedule, by the projected total commodity sales volumes, or other consistent billing determinants for each rate schedule for the applicable forecast period. The result is then multiplied by the revenue adjustment factor. The PGA demand charge change is derived by subtracting the new PGA demand charge (prior to the revenue adjustment factor) from the existing PGA demand charge (prior to revenue adjustment factor).

NATURAL GAS SCHEDULE NO. 57 (Continued)
Distribution System Transportation Service (Firm and Interruptible)

(T)

Section 5: Priority of Service

Sales gas volumes shall be measured as first through the meter. Following measurement of sales gas service, transportation services will be provided in the following sequence:

- a. Firm transportation service.
- b. Interruptible transportation service.
- c. Balancing service.
- d. Unauthorized use of gas.

Section 6: Telemetering Requirement

1. Service under this schedule requires Company-specified metering/telemetering equipment or data transmission equipment as specified in the distribution system transportation service agreement.
2. The cost of the initial installation of metering/telemetering equipment or data transmission equipment at the Customer's facility, including associated labor costs, will be borne by the Company. The Customer shall pay for the initial installation cost and ongoing charges for telephone service required by the telemetering or data transmission equipment. The cost of any subsequent change in the metering/telemetering equipment or data transmission equipment, including associated labor costs, necessitated by a change in the Customer's requirements, will be charged to the Customer. After the above-described initial installation, any Company-ordered changes or additions in metering/telemetering equipment, data transmission equipment, and any associated facilities required for the installation, will be acquired and installed at the Company's expense.

Section 7: Rates and Charges

1. For purposes of this rate, the measurement of service shall be expressed in therms, each equivalent to 100,000 British thermal units.
2. Customer charge per month: \$800.00.
3. Transportation firm contract delivery demand charge: \$1.02 per therm of daily contract demand per billing period. (I)

 - b. Gas supply demand charge: a rate per therm per month as shown on Supplemental Schedule No. 101 (Sheet No. 1101-B) multiplied by the maximum daily delivery of firm use gas as set forth in the service agreement.
 - c. Commodity charge: All firm gas shall be combined with the Customer's interruptible gas and billed at the interruptible gas rates for delivery and gas costs in part 3 herein.
5. Minimum monthly charge:
- a. Minimum monthly therms for the purpose of calculating the minimum monthly charge shall be the greater of:
 - (1) fifty percent of the Customer's highest monthly volume in the last twelve months; or
 - (2) 15,000 therms.
 - b. The minimum monthly charge shall be the sum of:
 - (1) the customer charge;
 - (2) the firm delivery demand charge;
 - (3) the firm gas supply demand charge;
 - (4) the total interruptible gas rate applied to all monthly therms delivered; and
 - (5) if the monthly therms delivered are less than the minimum monthly therms, the difference of the minimum monthly therms less monthly therms delivered multiplied by the sum of the Company's initial block interruptible delivery charge effective rate plus the gas procurement charge (Section 7, items 3.a.i. and 3.a.ii.). (C)
 - c. A provision for the suspension of the interruptible portion of the minimum charge for a specified period may be made as part of the service agreement executed by the Company and the Customer. (C)
6. The rates named herein are subject to adjustments as set forth in Schedule No. 1 and other supplemental schedules, when applicable.

Section 8: Payment of Bills

Bills are issued net, are due and payable when rendered, and become past due after fifteen days from date of bill.

Issued: February 15, 2006

Section 6: Unauthorized Use of Gas

If the Customer fails to comply with the Company's request to partially or totally curtail use of gas in accordance with the conditions set forth in Section 5 of this schedule and in Rule 23 of this tariff, penalties described in Rule 23 will be assessed to the Customer.

Section 7: Rates

1. For purposes of this rate, the measurement of service shall be expressed in therms, one therm being the equivalent of 100,000 British thermal units.
2. Customer charge per month, \$100.00
3. The total interruptible gas rate shall be the sum of the total interruptible delivery charges and the gas cost charge.
 - a. Total Interruptible Delivery Charge, the sum of i. and ii. below:
 - i. Interruptible
Delivery Charge
 - 20.520¢ Per month per therm for first 1,000 therms
 - 15.520¢ Per month per therm for all over 1,000 therms
 - ii. Gas Procurement Charge: 0.500¢ per therm for all therms delivered per month.
 - b. Gas Cost Charge – Interruptible gas cost is: All therms per month multiplied by the sum of the rates in ¢ per therm as shown on Supplemental Schedule No. 101 (Sheet No. 1101) and Supplemental Schedule No. 106.

4. The total firm gas rate shall be the sum of the demand charges and commodity charge as defined below:
 - a. Delivery demand charge: \$1.02 per therm per month multiplied by maximum daily delivery of firm use gas as set forth in the service agreement. (I)
 - b. Gas supply demand charge: a rate per therm per month as shown on Supplemental Schedule No. 101 (Sheet No. 1101-B) multiplied by the maximum daily delivery of firm use gas as set forth in the service agreement.
 - c. Commodity charge: All firm gas shall be combined with Customer's interruptible gas and billed at the interruptible gas rates in part 3 herein.
5. The minimum monthly charge shall be the sum of the customer charge (Section 7, item 2) and the demand charges (Section 7, items 4.a. and 4.b.).
6. Minimum annual charge:
 - a. The minimum annual charge shall be the combination of the minimum annual purchase obligation of 10,000 therms multiplied by the Company's initial block total interruptible delivery charge (Section 7, item 3.a.), plus the sum of the monthly demand charges (Section 7, items 4.a. and 4.b.) plus the sum of the monthly customer charges (Section 7, item 2.). The 10,000 therm minimum annual purchase obligation portion of the minimum annual charge shall be prorated for partial years of gas service or for the number of days that service was available without curtailment.
 - b. Any payments for gas used in excess of curtailment requests, as set forth in Rule No. 23, shall not be credited to minimum annual charge.
 - c. The annual period for purposes of determining minimum annual billing charges shall be the twelve-month period ending with the September billing cycle. Minimum annual billing charges, if applicable, will be added to the September billing.
7. The rates named herein are subject to adjustments as set forth in Schedule No. 1 and other supplemental schedules, when applicable.

WN U-2

Original Sheet No. 1118

PUGET SOUND ENERGY
NATURAL GAS SUPPLEMENTAL SCHEDULE NO. 118
Gas Revenue Normalization Adjustment

(N)

Section 1: Applicability

To all Customers served under Schedule No. 23, Residential General Service, Schedule No. 31, Commercial and Industrial General Service, Schedule No. 36, Special Commercial Heating Service (Optional), Schedule No. 51, Special Multiple Unit Housing Service (Optional) and Schedule No. 53, Propane Service throughout the Company's service territory.

Section 2: Purpose

To recover the margin per customer, as established in the Company's most recent general rate case, that is lost due to sales variability caused by weather and energy efficiency actions on the part of the Customer.

Section 3: Rate

The rates of gas sales service schedules listed in this section will be adjusted as shown in all blocks of the rate schedules, including minimum charges related to therms. The rate shall reflect the calculation for the year as described in Section 4 plus a true-up of the prior year.

Rate Schedule Nos. 23 & 53	0.000000 cents per therm
Rate Schedule No. 31	0.000000 cents per therm
Rate Schedule No. 36	0.000000 cents per therm
Rate Schedule No. 51	0.000000 cents per therm

Section 4: Decoupling Adjustment Account

1. For each schedule listed in Section 3 above, the Company will maintain a Decoupling Adjustment Account ("DAA") to record the total under or over collection from each month. Each DAA shall accrue interest on a monthly basis utilizing the "FERC interest rate" as described in WAC 480-90-233(4) as it exists on the initial effective date of this schedule. Each month, the Company will compute either a credit or a charge to each DAA by comparing the actual margin revenues for the applicable schedule to predetermined target margin revenues and either crediting the over-collection or charging (debiting) the under-collection to the account.
2. The amount to be charged or credited to the DAA shall be determined as follows:
 - a. Average therm use per billing meter (as shown in Section 5) and number of billing meters by schedule (as shown in Section 6) shall be utilized from the latest general rate proceeding for each applicable schedule.
 - b. The change in margin revenues (Customer Charge revenue plus Delivery Charge revenue) shall be as calculated as described in c. and d. below.

Original Sheet No. 1118-A

PUGET SOUND ENERGY
 NATURAL GAS SUPPLEMENTAL SCHEDULE NO. 118
 Gas Revenue Normalization Adjustment
 (Continued)

(N)

Section 4: Decoupling Adjustment Account (Continued)

- c. The current Customer Charge from each rate schedule shall be multiplied by the net change in billing meters from the test year for each schedule to arrive at a Customer growth adjustment to Customer Charge revenue for the test year.
- d. The test year average use per billing meter (on a monthly basis as shown in Section 5) shall be multiplied by the net change in the number of billing meters from the test year to produce a change in therms. Such therms shall be multiplied by the Delivery Charge per therm for each rate schedule to develop a Customer growth adjustment to Delivery Charge revenue for the test year.
- e. Actual margin revenue billed on a monthly basis shall be compared to the restated test year margin revenues (calculated in a. through d. above) to establish the amount of the required adjustment to the DAA.
- f. Annually, the balance in the DAA shall be divided by the estimated firm throughput for the succeeding 12 months to develop a rate per therm adjustment to the Delivery Charge.

First Revision of Sheet No. 1129

PUGET SOUND ENERGY
NATURAL GAS SUPPLEMENTAL SCHEDULE NO. 129
LOW INCOME PROGRAM

(T)

AVAILABILITY/APPLICABILITY:

The benefits available under this Low Income Program ("Program") (as approved in Docket Nos. UE-011570 and UG-011571) are available to Customers of the Company meeting the criteria described herein. The charges under this schedule apply to all Customers of the Company except Customers taking service under existing special contracts.

BENEFITS:

1. Benefits under this Program are available through designated agencies (herein "Agencies") that: a) meet the criteria for a "Qualifying Organization" as defined in RCW 82.16.0497, b) the Company accepts as capable of performing necessary obligations under this Program, and c) executes a contract with the Company that is: i) consistent with this schedule, ii) provides for periodic auditing, and iii) provides for an annual administration evaluation. The Agencies will ascertain whether specific Customer households seeking assistance with their natural gas bills are eligible for assistance under the Program.
 - a. The Agencies will determine whether a Customer meets the federal definition for Low Income Home Energy Assistance Program ("LIHEAP") qualification.
 - i) If the Customer is eligible, it will receive LIHEAP funds in lieu of funds under this Program unless or until LIHEAP funds are exhausted. Thereafter, the Customer will be considered for this Program.
 - ii) If the Customer is not eligible to receive LIHEAP funds, but meets the Company criteria, the Customer will be considered for this Program.
 - iii) If the Customer meets all applicable criteria, the Customer will be eligible to receive assistance under the Company's Program.
 - b. Total benefits under this Program plus administrative fees and program costs are subject to an annual cap of \$3.4 million for just the gas Program and \$9.5 million for both this gas Program and the low income program under the Company's electric tariff. The annual caps for electric and gas are annually re-established by the Company using the Four-Factor Allocator as provided in the Company's annual Commission Basis Report, subject to an annual true-up.

(C)
(N)
(N)
 - c. A qualifying Customer may receive assistance through this Program once during a program year. Customers shall be requalified annually by one of the Agencies. Total benefits to an individual eligible Customer under this program are subject to an annual cap equal to the LIHEAP cap (currently \$750.00).

First Revision Sheet No. 1129-A

PUGET SOUND ENERGY
NATURAL GAS SUPPLEMENTAL SCHEDULE NO. 129
LOW INCOME PROGRAM
(Continued)

INCOME ELIGIBILITY CRITERIA:

With exceptions as noted, eligibility will be restricted to "very low-income households", as defined by the Washington Department of Community, Trade and Economic Development for purposes of affordable housing in RCW 43.63A.510. Currently that definition identifies households with an income not to exceed 50% of area median income. For purposes of this Program, in areas where 50% of median income exceeds 150% of federal poverty guidelines, eligibility will be capped at 150% of federal poverty guidelines; and in areas where 50% of median income falls below 125% of federal poverty guidelines, eligibility will be capped at 125% of federal poverty guidelines. To summarize, the income-eligibility ceiling for the Program fluctuates in a range between 125% and 150% of federal poverty guidelines; within the range, the precise figure equals 50% of the median income of an area.

INFORMATION SERVICES:

1. Agencies will provide qualifying Customers with the following education and information.
 - a. Low-income weatherization program information.
 - b. Personal Energy Management (PEM) and, if applicable, Time of Day rate education.
 - c. Information on deferred payment arrangements and budget billing.
 - d. Conservation education and information.
2. The Company will provide qualifying Customers with the following information.
 - a. Information to Customers dealing with delinquent utility bills on how to access low-income assistance.

FUNDING:

1. There will be a prescribed agency administrative fee structure based on actual costs to local contractors to operate the LIHEAP program in Washington State. The administrative fees paid to Agencies will be considered part of the benefits paid under this Program. Funding of benefits under this Program will be allocated in the Company's service area proportionate to LIHEAP payments to PSE for natural gas in the most recent LIHEAP fiscal year.
2. There will be a surcharge on all natural gas (therms, either delivered or minimum quantity) to all firm and interruptible gas sales and transport service Customers that will be subject to an annual true-up so that the benefits under this Program are equal to the Funding amounts collected by the surcharge minus the effect of taxes.

MONTHLY RATE:

In addition to the amount set as the annual cap (see Benefits section), the rates under this schedule shall include amounts sufficient to recover the costs related to revenue sensitive items and taxes.
