17 DEC 20 AM 9:48

The undersigned represents the Railroad Company in the GCPF application described as (enter a brief description):

Install eight foot concrete panels on the east side of the Main Street railroad crossing in Mabton, Washington. USDOT #104535N. The purpose of this GCPF project is to improve pedestrian access and safety over the crossing.

We have reviewed the application and are satisfied the conditions are the same as described by the applicant in this matter. We agree to allow construction, modification or demolition on a railroad right-of-way as described in the application.
