## *2007 Integrated Resource Plan*

About PSE.....	<i>i</i>
Contents .....	<i>ii</i>
1. Executive Summary .....	1-1
Resource Need: The Challenges We Face .....	1-4
Meeting Electric Needs .....	1-6
Meeting Gas Need .....	1-11
Key Concerns .....	1-13
Conclusion .....	1-17
2. Planning Environment.....	2-1
Changing Environmental Regulations .....	2-2
Regional Transmission Constraints .....	2-11
Resource Costs and Availability .....	2-13
Financial Considerations .....	2-19
Conclusion .....	2-20
3. Key Analysis Components.....	3-1
Overview .....	3-2
Electric Analysis Components.....	3-3
Gas Analysis Components.....	3-17
4. Demand Forecasts .....	4-1
Methodology .....	4-2
Key Assumptions.....	4-4
Electric and Gas Demand Forecasts.....	4-9
5. Electric Resources.....	5-1
Electric Resource Need .....	5-2
Existing Electric Resources .....	5-5
Electric Resource Alternatives .....	5-35
Electric Analytic Methodology.....	5-42
Quantitative Results and Insights .....	5-51
6. Gas Resources .....	6-1
Gas Resource Need .....	6-2
Existing Gas Resources .....	6-4

ii. 2007 Integrated Resource Plan

Gas Resource Alternatives .....	6-18
Gas Analytic Methodology .....	6-29
Gas Analysis: Results and Key Findings .....	6-32
Gas for Electric Generation .....	6-48
7. Delivery System Planning .....	7-1
System Mechanics and 5-year Infrastructure Plan ..	7-3
Changes and Challenges .....	7-11
Planning Process .....	7-14
Case Studies .....	7-21
Emerging Alternatives .....	7-26
8. Choosing a Strategy .....	8-1
Electric Resource Strategy .....	8-2
Gas Resource Strategy .....	8-12
9. Action Plans .....	9-1
2007 Electric Resources Action Plan .....	9-3
2007 Natural Gas Resources Action Plan .....	9-4
Report on 2005 Action Plan .....	9-5
Key Definitions and Acronyms .....	iii
