SCHEDULE NO. 4
READY TO SERVE SERVICE

Available

Within the limits of all Washington Water Service Company Water Service Areas and at utility's option and capability to maintain Department of Health standards of quantity and quality.

Applicable

To any property owner who has completed and signed a Water Service Application, paid all applicable fees required for the company to commit service to a metered service connection, and had Water Service Application accepted in writing by the utility. Applicable to domestic residential customers, where hook-up fee has not been paid and meter has not been installed.

Conditions

The charge for this service is not subject to cancellation or reduction for seasonal or temporary periods. This charge will be the monthly minimum bill for this class of service. At the time hook-up fee is paid and meter installed the customer shall be transferred to Sheet No. 22 Schedule No.2. for metered rates.

Monthly Rates

Each connection or customer \$22.15 (I)

Note: The Ready To Serve charge and commitment may be terminated upon receiving written request from the customer or for non-payment of the Ready To Serve charge. Termination of the charge will allow the utility to remove the service connection. This disconnection or removal will allow the Utility to make that available service capacity to supply other connections on the water system.

After a commitment has been revoked for terminated service, future service to the property will require a new application for service, payment of service connection charges and will be subject to the availability of service company capacity at such time as the future application for service is made.

RULES AND REGULATIONS**

Rule 12 – Deposits (cont'd)

(C)

Rule 13 - Responsibility for Delinquent Accounts

The utility will not refuse or discontinue service to an applicant or customer, who is not in arrears to the utility even though there are unpaid charges due from the premises occupied by the applicant or a customer, due to the unpaid bill of a prior tenant unless there is evidence of intent to defraud.

The utility may not permanently deny service to an applicant because of a prior obligation to the utility.

**WATER SERVICE
RULES AND REGULATIONS**

Rule 15 - Sprinkling and Irrigation

Water used for sprinkling and irrigation must be paid for at the regular prescribed tariff rates for such service. The hours for such use will be as prescribed from time to time by the utility, subject to protest by any customer affected and reviewed by the Commission. During peak use months (June through September), and at such other times when demand may be high, the utility may prohibit or limit sprinkling and irrigation to preserve water for domestic consumption.

No person will use water for sprinkling or irrigation purposes during any fire in the area, and all sprinkling or irrigation must be stopped immediately when a fire alarm is sounded. Use of water may be resumed three (3) hours after the fire has been extinguished.

Rule 16 - Rates

(T)

Rates for water service and supply are those published in the utility's tariff on file with the Commission. Unless otherwise stated in this tariff, the rates apply to a single service, to one customer at one premise. Where two or more families with separate housekeeping establishments occupy the same or separate dwellings, each family using water is considered a separate customer. Each separate housekeeping establishment or business, using water service, will each be considered a customer.

When conditions require that more than one customer be supplied through one meter, (Accessory Dwelling Units or *Duplex*) each customer will be charged the minimum charge as provided by the schedule of rates. If the consumption as shown by the meter exceeds the allowance for the minimum charge multiplied by the number of customers, the excess consumption charge will be computed at the regular rates for one customer and the amount prorated equally to the multiple customers, or otherwise as may be agreed among themselves.

Water service must be subscribed to on an annual basis. No proration or reduction in billing is allowed unless this tariff proscribes temporary or seasonal rates.

**WATER SERVICE
RULES AND REGULATIONS**

Rule 17 - Account Set-Up Charge/NSF (Non-Sufficient Funds) Charge

An account set-up charge as specified in **Schedule X** will be made for each new account or change of account responsibility on an existing service. Such charge will be included in the initial billing to the customer. This charge includes the utility dispatching an employee to establish a base meter reading. This account set-up charge does not apply to:

- (a) Installation of a new meter.
- (b) Temporary or seasonal reconnection.
- (c) Owners or agents assuming temporary responsibility for service to vacant premises.

An NSF check charge as specified in **Schedule X** will be made for handling customer checks that have been returned by the bank as NSF or account closed. This charge will be applied to the next billing to the customer.

Rule 18 - Water Availability Letter Charge

Any prospective customer seeking a water availability letter or certificate of water availability from the utility must first pay the appropriate charge as specified in **Schedule X**. The water availability letter will include the date issued and the date of expiration. Water availability letters will be valid for no more than three (3) years, or until the expiration of the associated building permit, whichever occurs last.

Rule 20 – Cross Connection Control (continued)

Assembly Testing and Inspection

If a customer has an Approved Backflow Prevention Assembly installed, the assembly must be tested annually by a certified Backflow Assembly Tester. The Company maintains a list of certified Backflow Assembly Testers that are acceptable to the Company. The customer may choose from any Backflow Assembly Tester on the Company's list.

The customer must provide the Company a copy of the annual testing report from the Backflow Assembly Tester within thirty days of the anniversary date of the installation of the approved backflow prevention assembly. If the annual testing report is not provided within thirty days of the anniversary date of the installation of the approved backflow prevention assembly, then the Company will issue a *Notice of Disconnection* pursuant to WAC 480-110-355 (3a). If a copy of the annual testing report is still not received by the date specified for disconnection, the Company will disconnect the customer's service. If service is disconnected, the company will charge the customer its current Reconnection Charge, listed on Schedule X of this Tariff.

The Utility may immediately shut off water service if a public health emergency exists, including when a backflow is occurring or an unprotected cross-connection with or an unapproved water source exists

Rule 21 – Convenience Fee

(N)

When a customer phones the company and requests that their credit card be billed for their water charges, a convenience Fee as specified in **Schedule X** will apply. No charge will be made for a customer enrolled in auto-pay.

Rule 22 – Landlord Reversion Agreement

(N)

The utility will automatically revert accounts into the landlords name when tenants move out when the Landlord Reversion Authorization has been submitted to the Utility. The form is available for download at the companies' website or a hard copy can be requested by the landlord. Reversion will remain on file with the utility and can only be canceled with a 30-day written notification.

Rule 23 – Island Fee

(N)

An Island Fee as specified on **Sheet 23.2 Schedule 3.2** will be billed to customers served by systems operated on Orcas Island. The fee will offset the higher costs of operations on the island, due to surface water treatment and Washington State Department of Health requirement for 24-7 monitoring of the treatment plant.

(N)

SCHEDULE NO. 4
READY TO SERVE SERVICE

Available

Within the limits of all Washington Water Service Company Water Service Areas and at utility's option and capability to maintain Department of Health standards of quantity and quality.

Applicable

To any property owner who has completed and signed a Water Service Application, Certificate of Water Availability, and paid all applicable fees required for the company to commit service to a meter service connection. Applicable to domestic residential customers, where meters have not yet been installed.

Conditions

The charge for this service is not subject to cancelation or reduction for seasonal or temporary periods, unless seasonal rates apply per this tariff. This charge will be the monthly minimum bill for this class of service. At the time water service begins the customer shall be converted to the metered rates on Sheet No. 22 Schedule No.2. Charge and commitment is limited to 1 ERU or connection per parcel.

Monthly Rates

Each connection or customer \$22.15 (I)

Note: The Ready To Serve charge may be discontinued upon receiving written request from the customer or for non-payment of the Ready To Serve charge. Termination of the charge will allow the utility to remove the service connection. This disconnection or removal will allow the Utility to make that available service capacity to supply other connections on the water system.

After a commitment has been revoked for discontinued service, future service to the property will require a new application for service, payment of service connection charges and will be subject to the availability of service company capacity at such time as the future application for service is made.

MUNICIPAL TAX SCHEDULE

Application

These Adjustments apply to all charges for sales of water service pursuant to this tariff with the jurisdiction imposing a tax, as provided in this tariff.

Tax Adjustment

The rates and charges named in this tariff shall be proportionately increased by an adjustment equivalent to the amount of the tax imposed by the jurisdiction and effective as listed below titled as "Rate Applied to Customer's Tariff Charges."

Jurisdiction	City Ord. No.	Effective Date	City Ordinance Rate	Rate Applied to Customer's Tariff Charges
City of Lacey				
Classic Heights 63381B	869	04/01/92	.06	.06

**WATER SERVICE
RULES AND REGULATIONS**

Rule 6 – Installation of Meters and Service Pipe

The utility will construct service connections of a proper size from its distribution mains to the Customer's property. The utility reserves the right to refuse to construct a service connection to any property if the applicant's pipes are not properly constructed and protected.

The utility may meter any flat rate service at its discretion. The utility's metered service rates will become effective, after the customer has received 30 days' written notice. All meters so placed will be installed and maintained by the utility without direct retrofit cost to the customer.

A meter will be installed upon any flat rate service at the request of the customer.

Rule 7 – Distribution Main Extension

(C)

Utility Allowance – Where elevation and construction conditions allow and one or more bona fide prospective permanent customers request a main extension, the utility will construct and pay for the same, if the utility has sufficient capacity available to meet Department of Health standards of quantity and quality.

Customer ProRata share – The cost of main extension in excess of the estimated 10% of customer(s) revenue for three years (utility allowance) from the date of certification by engineer must be paid by the prospective customers in advance.

Construction Contract - no main extension will be considered as coming under this rule where the total cost of the main extension is greater than the 10% estimated customers(s) revenue for six years from the date of water main certification by the engineer. Water main extensions and/or fire hydrants will be installed after contracts have been approved by the Washington Utilities and Transportation Commission pursuant to WAC's for special contracts for water utilities and distribution extensions.

**WATER SERVICE
RULES AND REGULATIONS**

Rule 10 - Interruption to Service

The utility will make a diligent effort to render uninterrupted service and supply of water. In cases where shut-off is necessary for repair, reconstruction, damage prevention or similar cause, the utility will give one day's advance notice to its customers of such scheduled shut-off. However, the utility will not be responsible for any damage that may result from any cessation of services such as above outlined, nor for failure to give notice of shut-off when circumstances are such that it is impossible to give notice as stated above.

Rule 11 - Bills

(C)

All bills shall be paid monthly in arrears and are due and payable upon receipt and are considered delinquent fifteen (15) days after the date mailed. Bills will be deemed received upon personal delivery to customer or three (3) days following the deposit of the bill in the United States mail to the customer's last known address. Where the meter has not been read, a minimum bill will be rendered and adjusted when the next succeeding meter reading is available.

Rule 12 - Deposits

(C)

The utility does not require a deposit in situations where a customer's service has been disconnected for nonpayment of amounts owed to the utility or when a customer is unable to establish or maintain credit with the utility.
