**FIRST REVISED SHEET NO. R-4
CANCELING ORIGINAL SHEET NO. R-4**

ILIAD WATER SERVICE, INC.

RULES AND REGULATIONS

Rule 5 – Reconnection Charge

A reconnection charge of \$300.00 per service shall be made for any subsequent reconnection of the customer's service to the utility's distribution system. Such charge is to apply only in cases where service has been discontinued on account of delinquent account, request of the customer, refusal to make proper repairs or similar cause. No charge will be made for reconnection of service if the shut-off was made for the convenience of the utility in making repairs, changes, etc.

When a utility employee is dispatched to disconnect service, that person shall be required to accept payment of a delinquent account at the service address if tendered in cash, but shall not be required to dispense change for cash tendered in excess of the amount due and owing. Any excess payment shall be credited to the customer's account.

(D)(T)

(D)(T)

Rule 6 – Service Connections

The utility will construct service connections of a proper size, as determined by the utility, from its distribution mains to the applicant's property. The utility reserves the right to refuse to construct a service connection to any property in case a reasonable doubt exists as to continuity of service, or in case the applicant's pipes are not properly constructed and protected.

**FIRST REVISED SHEET NO. R-9
CANCELING ORIGINAL SHEET NO. R-9**

ILIAD WATER SERVICE, INC.

RULES AND REGULATIONS

Rule 15 – Delinquent Accounts and Disconnections

Disconnections shall be handled as provided in WAC 480-110-071, a copy of which is available upon request.

Rule 16 – Rates

Rates for water service and supply shall be those published in the utility's tariff on file with the Commission. Unless otherwise stated in this tariff, the rates shall apply to a single service, to one customer at one premises. Where two or more families with separate housekeeping establishments occupy the same or separate dwellings, each family using water shall be considered a separate customer. Each separate housekeeping establishment or business will each be considered a customer.

When conditions require that more than one customer be supplied through one meter, each customer shall be charged the minimum charge as provided by the schedule of rates. If the consumption as shown by the meter exceeds the allowance for the minimum charge multiplied by the customers, the excess consumption charge shall be computed at the regular rates for one customer and the amount prorated equally to the several customers.

Rule 17 – Account Service Charges

A service charge of \$50.00 will be made for each new account or change of account responsibility on an existing service. Such charge shall be included in the initial billing to the customer. An additional charge of \$25.00 is applicable when the utility must dispatch an employee to establish a base meter reading. Where separate new connections or changes are required for service billed on different account numbers at the same address, the service charge shall be applied to each account, unless service has been separated for the utility's convenience.

FIRST REVISED SHEET NO. R-10
CANCELING ORIGINAL SHEET NO. R-10

ILIAD WATER SERVICE, INC.

RULES AND REGULATIONS

Rule 17 – Account Service Charges (Continued)

The service charge shall not apply to the following:

- (a) Installation of a new service.
- (b) When a temporary or seasonal connection or reconnection charge is made.
- (c) When an owner or agent assumes temporary responsibility for service to vacated premises.

A service charge shall be applied to each account for each check returned unpaid for any reason by the bank upon which the check is drawn. The service charge is \$25.00. A returned check is considered to be a nonpayment.

(I)

Rule 18 – Outdoor Watering – Sprinkling, Irrigation, Pools, Hot Tubs, etc.

(T)

The utility’s water systems are designed for domestic consumption. Irrigation and sprinkling are not considered to be domestic uses.

Water used for sprinkling and irrigation shall be paid for at the regular prescribed tariff rates for such service. The hours for such use shall be as prescribed from time to time by the utility or as required by the Department of Health. In addition, the utility may put restrictions on filling of swimming pools, hot tubs, etc.

(D)(T)

No person shall use water for sprinkling or irrigation purposes during any fire in the area, and all sprinkling or irrigation shall be stopped immediately when an alarm of fire is sounded, and not resumed until the fire has been extinguished.

RULES AND REGULATIONS

Rule 18 – Outdoor Watering – Sprinkling, Irrigation, Pools, Hot Tubs, etc. (Continued)

Each customer will follow a “best practices” approach to the use of irrigation service. This best practices approach includes the following:

- a. revisiting existing landscaping to determine if modifications are needed to reduce use of water;
- b. irrigating grass areas at a rate of no more than one (1) inch per week;
- c. sizing irrigation sprinklers or installing irrigation sprinklers to provide as near a uniform coverage of grass-landscaped areas as feasible;
- d. not using watering practices that involve a “sponge” approach where water is applied in one area with the thought that it will eventually provide coverage of other areas through the water traveling over, through or under the ground; and
- e. not irrigating when the temperature is forecasted to exceed ninety (90) degrees Fahrenheit.

If the utility issues a “no irrigation” order for the water system, the customer must immediately cease irrigation until the “no irrigation” order is lifted.

ORIGINAL SHEET NO. W-106

ILIAD WATER SERVICE, INC.

(N)

SCHEDULE 105
CROSS CONNECTION CONTROL

A. Applicable:

To all customers served by the utility for purposes of assessing the presence of cross connections and additional requirements apply to those customers that have cross connections.

B. Rate:

Site Visit Charge	- \$150.00
Premises Inspection Charge	- \$75.00 per hour prorated for time spent
Installation of Approved Backflow	
Prevention Assembly	- Time and materials

C. Conditions:

1. This schedule is established pursuant to the requirements adopted by the Washington State Department of Health in WAC 246-290-490, as it now exists or is hereafter amended or replaced. Copies of this regulation are available from the Washington State Department of Health or from the utility.

2. All customers shall be surveyed as to the existence of cross connections pursuant to the definition of cross connections established by the Washington State Department of Health. A second survey shall be sent to those customers who fail to respond to the initial survey. If the customer fails to respond to the second survey, then the following non-response options may be necessary and the customer will be charged pursuant to the rate or rates, as applicable, set forth in section B, above. For new customers, a survey will be required as part of the application prior to accepting the applicant as a customer.

ORIGINAL SHEET NO. W-107

ILIAD WATER SERVICE, INC.

(N)

SCHEDULE 105 (Continued)
CROSS CONNECTION CONTROL

Non-Response Options

- a. Site Visit letter/appointment for on-site review of cross connection potential, followed by a Site Visit and Premise Inspection for determination of cross connection potential as defined in WAC 246-290-490. The customer will be assessed the charges set forth in section B, above.
 - b. Installation of Approved Backflow Prevention Assembly at customer's expense or as set forth in section B, above.
 - c. Notice of disconnection of service per WAC 480-110-355.
3. An on-site inspection is required for every customer meeting any criteria of WAC 246-290-490-4(b) Table 9. The customer will be assessed the appropriate charges set forth in section B, above.
4. If a cross connection is detected or is reported by the customer, then the utility will determine the appropriate remedy and notify the customer of the remedy, options, and dates for compliance. If an Approved Backflow Prevention Assembly is required, the utility will determine the type of Approved Backflow Prevention Assembly that must be installed, and must provide the customer with a date by which the device must be installed. Installation will be the customer's responsibility and sole expense. The customer may choose to have the Approved Backflow Prevention Assembly installed through any contractor acceptable to the utility. If the customer does not install the appropriate Approved Backflow Prevention Assembly within thirty days of notification, the utility may take appropriate action to correct. This may include the utility installing an Approved Backflow Prevention Assembly at customer's expense if tariffed or may result in the utility providing a notice of disconnection of service by the date specified in the notice. The Approved Backflow Prevention Assembly will be installed on a customer's side of the service connection.

ILIAD WATER SERVICE, INC.

(N)

SCHEDULE 105 (Continued)
CROSS CONNECTION CONTROL

5. If the customer has an Approved Backflow Prevention Assembly installed the assembly must be tested annually by a certified Backflow Assembly Tester (BAT) specialist. The utility will maintain a list of certified BAT specialists that are acceptable to the utility and the customer may choose from any such BAT specialist on the utility's list. The customer will provide a copy of the acceptable annual report from the BAT specialist. If the annual report is not provided within thirty days of the anniversary date of the installation of the Approved Backflow Prevention Assembly, then the utility will provide a notice of disconnection pursuant to WAC 480-110-355. If a copy of the annual report is not received by the date for disconnection as specified in the notice, the utility will disconnect customer's service.

6. No less often than every three years, the utility shall re-survey its customers concerning the existence of cross connections. If the customer does not respond to the initial survey, a second survey will be sent. If the customer does not respond to the second survey, then non-response options listed in paragraph 2 will apply.

7. For each customer meeting any criteria of WAC 246-290-490-4(b) Table 9, no less than every three years, the utility shall conduct a site visit, premises inspection and shall assess the customer the charges set forth in section B, above.

8. When necessary, the utility will provide notices of disconnection as required in WAC 480-110-335.
