David W. Danner, Executive Director and Secretary  
Washington Utilities and Transportation Commission  
PO Box 47250  
Olympia, WA 98504-7250

Attn: Anne Soiza, Pipeline Safety Director

RE: Everett Delta Pipeline Pressure Authorization

Dear Ms. Soiza:

Pursuant to WAC 480-93-020, Puget Sound Energy (PSE) recently submitted a request for a pressure authorization and approval to operate the existing 16-inch Everett Delta pipeline. This pipeline is currently operated by Williams Northwest Pipeline Company (Northwest).

UTC Staff requested that operations and maintenance records be included as part of the review and submission. PSE's original submission (Letter dated September 3, 2009) included only those records (incomplete) provided by Williams. Williams noted that further records research was required to complete the records request.

PSE has now received and reviewed the records necessary to complete Staff's request and are included with this letter.

If you have any questions or require additional information please call me at (425) 462-3967.

Sincerely,

Helge Ferchert  
Manager Gas Compliance and Regulatory Audits
